LABOR IS FINISHED.

Board of Inquiry Complete Its Report.

Finding Will be Forwarded at Once to Washington.

Admiral Sicard Talks Guardedly of the Matter.

It is Hinted That the Mystery of the Maine's Destruction is Not Solved by the Report.

KEY WEST, Fla., March 22.—The United States court of inquiry into the loss of the battleship Maine has at last finished its laborious work of investigating the disaster and has submitted its report to Rear Admiral Sicard.

He has pointed out some alterations which he considers necessary and the report will probably be taken to Washington today by Lieutenant Commander Marix, judge advocate of the court.

It is possible, however, that its arrival in Washington may be delayed several days longer, as Admiral Sicard said last night:

"I could scarcely say that the report will leave tomorrow. The court has practically finished its work; but some details may engage its attention long enough to keep the report here several days. I trust, however, that the navy department will have the documents in a very short time."

The decision reached by the court is still a matter of surmise. Perhaps some significance may be attached and conclusions drawn from a remark made by Admiral Sicard last night, when he said to a correspondent:

"The case of the Maine is most peculiar, perhaps the most peculiar which has ever occurred in the history of the world."

From the general tone of his remarks it might be inferred that the court findings do not definitely solve the mystery of the explosion.

This is further borne out by the admiral's statement that even after the report had been sent to Washington the department may require further investigation.

It is certain in any case, whether the report leaves today or later in the week, that the court will remain in existence at the call of Admiral Sicard, the convening and reviewing authority.

All rumors as to the report being already on its way to Washington were set at rest yesterday afternoon when Judge Advocate Marix walked into the hotel and asked for Admiral Sicard. Behind Lieutenant Commander Marix was an armed orderly with a large dispatch bag slung across his shoulder, and in that bag was the report of the Maine court of inquiry.

In the little waiting room of the hotel Lieutenant Maaix personally delivered the report to Admiral Sicard.

Commander West, of Admiral Sicard's staff, then joined Lieutenant Marix and the trio walked up stairs to the admiral's room. For two hours they were closeted together, going over the voluminous papers.

Lieutenant Commander Marix then personally took the papers on board the Nashville, which lies close off shore.

If the report can be finally prepared today, to the admiral's satisfaction, there is little doubt that it will be taken on the afternoon boat to Miami.

The feeling here last night, after it became known that the report had been turned to over the admiral, was one of relief. Naval officers and others discussed the possibilities of the court's findings until a late hour. The general impression continued to prevail that the court had found that the Maine was intentionally blown up, but no new reasons were adduced for this conclusion.

The United States battleships Texas and Massachusetts passed here at 5 o'clock yesterday afternoon on their way to Hampton Roads.

The United States battleship Indiana arrived here yesterday from the Tortugas Islands and in anchored beside the battleship Iowa and cruiser New York, six miles from shore.

AN ABSOLUTE FAILURE.

General Pando's Negotiations With Cubans Come to Naught.

HAVANA, via Key West, Fla., March 22.—It is now known positively that the negotiations between General Pando's delegates, Ramierez and Charviz, and Gen. Calixto Garcia and other prominent insurgents, in which the radical autonomists made what are said to be final offers of practical independence, have proved an absolute failure.

No particulars have yet been received at the palace here as to the place or the particulars of the meeting, but that the negotiations have failed is shown by the resumption of hostilities.

General Pando's command is again moving eastward, purposing to carry out the plans in the province of Puerto Principe and Santiago de Cuba, made prior to the general's arrival at the city of Santiago de Cuba.

The fact that Gen. Maximo Gomez remains inside the Jucaro-Moron trocha and in General Pando's rear, makes the latter the subject of criticism upon the part of military men in Havana. However, in view of the fact that the details of the movements of the Spaniards and insurgents are meagre, all judgment passed is liable to revision on receipt of fuller information.

The insurgents recently captured and destroyed Fort Oleso in the district of San Juan Martinez, province of Pino del Rio. Five of the Spanish garrison were killed and five were wounded.

WAR INEVITABLE

Says Hon. D. S. Sleeper, Friend of the President.

CRIPPLE CREEK, Colo., March 22.—In an interview here Hon. D. S. Sleeper, speaker of the lower house of the Ohio legislature and a personal friend of President McKinley, said:

"I consider war with Spain inevitable. The matter has gone so far that diplomacy cannot avert a combat. The struggle will probably be very short. Cuba will be freed, the United States will get whatever indemnity she has demanded and that will end the matter."

THREATENS TO RESIGN.

Blanco Protests Against Torpedo Fleet Being Held at the Canaries.

NEW YORK, March 22.—A special dispatch from Havana today alleges that Captain General Blanco and Admiral Manterola have notified the Madrid government that they will resign their offices if the Spanish torpedo fleet is to be detained at the Canaries in obedience to the demand of President McKinley. Captain Eulate, of the cruiser Vizcaya, is also alleged to have sent a message to the Spanish admiralty similar in tenor to those of the captain general and Admiral Manterola.

TERRIFIC STORM.

Kansas and Nebraska in a Blizzard's Clasp.

The Thermometer Drops Seventy Degrees in Twelve Hours--Fruit and Vegetables Killed.

KANSAS CITY, Mo., March 22.—The most severe storm of the season is in progress in the southwest and west. Emporia, Kas., reports a fall of forty degrees in temperature since last night, and Wichita, Florence and other Kansas points make like reports.

Beatrice, Neb., reports a fall of seventy degrees in the past twelve hours. Vegetables have been ruined and it is believed that fruit crops have been seriously damaged.

EMPORIA, Kas., March 22.—A genuine blizzard prevailed today in this portion of Kansas with no indications at noon of its letting up. The fruit crop, it is claimed, has been badly damaged and in some sections will probably be destroyed. Early vegetables have been killed.

WOULD GAG THE PRESS.

Drastic Measure is Now Before the Senate of France.

PARIS, March 22.—Senator Morelet's espionage bill has been printed and distributed as urgent in the senate, where a great majority of the members favor the measure.

The bill is an outcome of the Zola trial. It fixes heavy penalties for espionage, varying according to the circumstances from death to a limited imprisonment, with a fine.

It provides that the trials of military and naval suspects shall always be held in secret, and that civilians shall be liable to the same method of trial at the discretion of the court.

The bill makes it a criminal offense for a newspaper to refer to such a trial, violations of this clause making the violators liable to penalties varying from imprisonment for a week and a fine of 1,000 francs to a month's imprisonment and a fine of 10,000 francs.

ROB A PRISON AND ESCAPE.

Two Inmates of a Massachusetts Institution Break All Records.

DEDHAM, Mass., March 22.—Two prisoners at the Dedham house of correction, having sawed their way out of their cell, overpowered a guard yesterday, and, after binding him, seized his keys, opened the safe, from which they took about $2,500 in money belonging to the officials and prisoners, and three revolvers and then escaped. The men who escaped are Patrick E. Gill, of Hyde Park, who has served but a few months of a two years' sentence for larceny, and Charles Cook, of Walpole, who was awaiting a hearing before the grand jury on a charge of breaking and entering.

IN THE RUINS.

Several Men Crushed by Falling Walls.

ST. LOUIS, March 22.—It is reported that the May, Stein & Co. furnitture warehouse at Olive and Nineteenth streets, have been blown down and several men are thought to be buried in the ruins. The building was partially burned last week.

'TWAS EXTERNAL.

Such Will be the Finding of the Court.

Spanish Minister Telegraphs the News to Madrid.

United States Officials Have Nothing to Divulge

Further Than to Say That the Report of the Court of Inquiry Is "Very Voluminous."

MADRID, March 22.—The Spanish government has received a dispatch from its minister at Washington, Senor Polo Y. Bernabe, saying that the report of the United States naval court appointed to inquire into the loss of the battleship Maine holds that the explosion was of external origin.

VERY VOLUMINOUS

Is all the Officials Will Say of the Report.

WASHINGTON, March 22.—After the cabinet meeting today the following statement was given out from an official source:

"It was understood at the cabinet meeting today that the report the of court of inquiry would probably be here Thursday or Friday; that it is a very voluminous document; that probably it will not be given to the press and to congress before Monday; that the president will require that much time for its proper consideration."

CABINET MEETING.

The President Confers With His Advisors --Secretary Long and Judge Day Meet.

WASHINGTON, March 22.—This being cabinet day, interest in the Spanish situation was centered in the meeting of the president and his advisors, as it was felt that with the report of the court of inquiry so near at hand a full understanding would be reached as to the course to be pursued when the document arrived. Prior to the meeting the statement was made that neither the report nor any part of it had reached the authorities here.

With the cabinet officers at the white house and with Mr. Roosevelt at the capitol before the senate naval committee, there was a lull in the usual activity about the navy department. Mr. Long had a busy hour, however, before he left for the cabinet meeting. Judge Day came over from the state department and had an extended talk with the naval secretary. President Orcutt, of the Newport News Ship Building company, also talked with Mr. Long on the plans for the launching of the new battleships Kearsarge and Kentucky at Newport News next Thursday.

Owing to the condition of affairs here Mr. Long is not likely to attend the launching, as Thursday is the day on which the report of the court of inquiry may be received. For the same reason many of the naval chiefs who had hoped to see these fine ships glide into the water will be unable to attend the launching.

A distinguished party is to leave here tomorrow night, however, including members of the senate and house naval committees and such naval officials as are not pressed by the present emergency conditions. Mr. Orcutt stated that the Kearsarge would leave the ways at 10 o'clock Thursday morning and the Kentucky one hour later.

Mrs. Herbert Winslow, wife of Lieutenant Commander Winslow, and Miss Christine Bradley, daughter of Governor Bradley, the two ladies who will christen the Kearsarge and Kentucky, respectfully, will reach Newport News tomorrow.

Governor Bradly and a party of 300 Kentuckians will arrive at the same time to do fitting honor to the ship which bears the name of their state. After the launching an hour will be given to inspecting the ship yard, including the work on the big battleship Illinois, and later a collation will be served. Mr. Orcutt speaks in the highest terms of the two new battleships, and says that on a pinch they could be made ready for service within eight months and possibly less.

THAT TORPEDO FLOTILLA.

It May Resume Its Journey to Havana Harbor.

MADRID, March 22.—The papers here publish full reports of the movements of the United States battleships and of the defensive preparations being made by the government of the United states.

It is reported that the Spanish warship selected to convey the torpedo flotilla has sailed from Carthagena for the Canary Island. It appears that the delay in the voyage of the torpedo boats is due to the fact that the Ariete, one of the Spanish torpedo boats, sustained some slight damage while on her way from Cadiz to the Canaries.

The Spanish newspapers advocate further strengthening of the naval squadron in Cuba, so not as to be caught at disadvantage in case of war.

The Heraldo thinks that in view of the "ostentatious preparations" of the United States, Spain has full liberty to make similar preparations.

The Globe insists that injury has been done to Spain by the United States squadron remaining close to the seat of war. It gladly notes, however, that the verbal suggestions of Senor Polo Bernabe, the Spanish minister at Washington, to Secretary Sherman, have led to the withdrawal of a portion of the squadron, thus demonstrating the cordiality existing between the two countries.

WANTS ADVICE.

President McKinley Calls Senators Allison and Gorman In.

WASHINGTON, March 32.—Senators Allison and Gorman saw the president today by appointment. The president desired to consult them regarding the present Cuban situation, as he has been consulting others.

Little could be learned concerning the nature of the conference, but it is known that the president desires the views of leading men of both parties at this time on the situation, which is now considered very critical.

No official information as to the nature of the Maine report has been received, but it is believed that the assumption is that the board will say it was an ontside explosion, without fixing responsibility.

SIGBEE UNBLAMED.

Commander of the Maine is Restored to Active Duty.

Action of the Navy Department Indicates That the Explosion Was Not an Accident.

HAVANA, via Key West, March 22.—That the American court of inquiry has decided that the explosion which destroyed the Maine was not an accident is assured by the news which has reached here that Captain Sigsbee has received secret instructions from Washington that he is to be returned to active duty.

This announcement sets all doubt aside, for the reason that any other finding than the destruction of the Maine by means of force, externally applied, would mean a court martial for Captain Sigsbee.

A verdict declaring the destruction of the Maine the result of an accident would be followed by the immediate request from Sigsbee for a court martial.

No date has been set for the captain's departure from Havana, but he understands that as soon as the wrecking of the Maine proceeds a little further he will be called to Washington and his ship will technically go out of commission.

As soon as the arrangements can be made and a crew of men and officers be gathered together, he will take charge of one of the additions to the navy.

Should President McKinley be successful in his efforts to purchase the O'Higgins and the San Martino Captain Sigsbee will be given command of one of those fighting monsters, so his friends have been assured.

It is stated by a friend of the officer that his friends, very close to President McKinley, knowing the strain he has been under, sent Captain Sigsbee the bare announcement that as soon as possible he will be given command of another ship.

ANXIOUS FOR WAR.

City Council of Indianapolis Passes Resolutions.

INDIANAPOLIS, March 22.—The common council of this city last night passed resolutions urging that war be declared against Spain if the naval court of inquiry reports that Spain directly or indirectly caused the Maine disaster, and that the United States should insist upon the evacuation of Cuba by the Spanish army and suitable indemnity for the loss of the Maine. The council also declared that it would "lend its moral assistance to the executive in declaration of hostilities." Councilmen Allen and Crall, (republicans) were the only members who voted against the resolution, holding that the subject was outside the province of the council.

VETERAN BANKER.

Truman P. Handy Lives to Reach the Age of Ninety-one.

CLEVELAND, Ohio, March 22.—The venerable Truman P. Handy, widely known as probably the oldest banker in active service in the United States, is critically ill at his home, No. 521 Euclid avenue.

Mr. Handy is over ninety-one years of age. About two weeks ago he contracted a cold, which was soon attended with complications.

Today he is unconscious, and, owing to his extreme age it is not believed he can recover.

Louis Heilbroner went to Indianapolis today on business connected with the summer entertainments at Robison park. He will visit Cincinnati before returning home.

THE NEW MAINE.

Another Ship Will Bear That Name.

The Naval Appropriation Contemplates Its Construction.

Naked Ship Will Cost Nearly $3,000,000

And Will be Built Upon Lines Which Governed the Construction of the Ship Recently Destroyed.

WASHINGTON, March 22.—The naval appropriations bill, as reported to the house today, carries a total of $35,683,960, an increase over last year of $3,764,432 and over the current estimates of $2,514,824. For the increase of the navy the bill allows to be constructed by contract three sea-going coast-line battleships, designed to carry the heaviest armor and most powerful ordnance, a displacement of 11,000 tons, with the highest practicable speed for their class, to cost, exclusive of armament, not exceeding $3,000,000 each, one to be named the Maine; six torpedo boats, 150 tons displacement, and six torpedo-boat destroyers, about 350 tons displacement, to cost not exceeding $2,340,000; and one gun boat to take the place of the United States ship Michigan, to cost, exclusive of armament, not to exceed $260,000, to be built on the great lakes.

One of these sea going battleships is to be built on the Pacific coast. The contracts for the construction of all these vessels are to be made within sixty days of the enactment of the bill.

Toward the construction of four timber dry docks, $200,000 each is allowed, each to be not less that 700 feet long, and sufficient to meet probable future requirements of the largest vessels.

They are to be located at Portsmouth, N. H.; Boston, Mass.; League Island, Pa., and Mare Island, Cala., the total cost when completed not to exceed $850,000 each.

At Algiers, La., a dry dock is to be built, but is to be a double sided steel floating type known as the combined floating and graving self-docking dock, capable of lifting a vessel of 15,000 tons displacement and twenty-seven feet draft of water, to cost, including moorings and wharfs, $850,000, of which $200,000 is appropriated this year.

The bill directs the appointment of a board of naval officers to determine the desirability of locating and constructing a dry dock in the harbor of Galveston, Texas, and to report to congress at the next session.

MINE EXPLOSION.

Two Dead and Others Badly Injured.

All the Imprisoned Miners Are Rescued--A List of the Unfortunate Men.

PITTSBURG, Pa., March 22.—An explosion occurred at Manown coal mine, near Monongahela City, today. The known dead and injured are:

Michael Tolic, body burned badly and hardly recognizable.

Unknown foreigner, found floating in the river an hour after the explosion.

Alex Deogdon, miner, badly burned about the head and face. Serious condition and will hardly recover.

J. Fulton, miner, badly burned and bruised about the body, may recover.

Tony Fulton, son of the former and his helper, badly burned; likely to recover.

Two unknown Slavs, badly burned. In an unconscious state and their names cannot be learned.

A later report says that the imprisoned miners were rescued uninjured.

GREAT SWINDLE

In Which Government Employes Are Participants.

Fraudulent Time Checks for Service Never Performed Are Sold in the Sum of $300,000.

WASHINGTON, March 22.—Information has reached the government, through a number of banks at St. Paul, Minn., that during the past year and more other nearby banks have been made the victims of colossal frauds through the suspected collusion of government clerks connected with the commission having in charge the improvements of the Upper Mississippi river. Full details of the affairs have not yet reached the government, but the statements submitted by the banks indicate that $300,000 or more has been procurred from them through fraudulent time checks for services never performed. Copies of some of these time checks are said to be signed by J. H. Southall, chief clerk of the United States engineers office at St. Paul, and are dated at different times during the year 1897.

Others, it is understood, are dated in 1896. How the banks came to be imposed upon to the extent indicated, and why the checks have been withheld until this time, cannot be even conjectured.

It is undersood that the banks will make a claim for reinbursement, but the law is said here to be clearly against this contention.

The government will begin a searching investigation at once into the whole matter.

ARE GATHERING.

Methodist Ministers Assembling at Hartford City.

North Indiana Conference Begins Wednesday--Faculty and Students of Taylor University Conduct Services.

HARTFORD CITY, Ind., March 22.—Although the fifty-fifth session of the M. E. conference, which convenes in this city, does not begin proper until Wednesday, every train since yesterday brought in ministers from all parts of the conference district, and the indications point to a large attendance. Last night the faculty and students of Taylor university were accorded the honor of conducting the preliminary services of the session. Some of the most prominent educators of the church were present with a bevy of students from the college. Rev. John R. Wright, D. D., presided. Able addresses were made by President T. C. Reade, Professor Anderson and Sam Small. Taylor university is the successor of the Fort Wayne college, and recognized as an official Methodist institution of learning. It is appraised at $52,000.

INSPECT BUILDINGS.

The Carpenters Want a Building Inspector Appointed.

Copy of an Ordinance Now in the Hands of Mayor Scherer--Endorsed by Organized Labor.

The carpenters of Fort Wayne have for sometime been agitating the passage of an ordinance providing for the appointment of a building inspector. The matter was brought before the Trades and Labor council and the legislative committee was instructed to investigate and assist the carpenters to secure the passage of such an ordinance. A copy of the Indianapolis ordinance has been secured and is now in the hands of Mayor Scherer. The law, if adopted, provides for the appointment of a man to inpect every new building erected in the city. The journeymen carpenters, who are behind the bill, assert that such a law is almost a necessity in Fort Wayne.

LOCAL LINES.

F. F. Hilbreth, of Terre Haute, is registered at the Randall.

Charles Barrett is home from Purdue to spend his vacation.

Judge E. C. Vaughn, of Bluffton, was in the city today on legal business.

Dr. Van Nuye, of Van Wert, Ohio, was registered at the New Aveline hotel today.

Col. Robert G. Ingersoll will lecture at Princess rink Friday, April 29; subject, "Liberty."

Mrs. E. L. Reynolds, of 132½ Broadway, lies seriously ill at the residence of D. Nestle, on Creighton avenue.

H. K. Scott and C. J. Pillird, business men of Angola, were in the city last night and today on business.

Daniel Rehm and Daniel Haley have purchased the house of call on Columbia street formerly conducted by Bert Champion.

Misses Jennie Congleton and Grace Peterson, of Decatur, are the guests of Miss Cora Morre, of Suttenfield street, this city.

Dr. L. T. Sturgis is much improved in health after several months' confinement to his home and is able to be about the streets.

Lew Clark, of Chicago, is in the city visiting his sons, Thomas and Charles. He was the landlord of the old Oliver house in Fort Wayne fifteen years ago.

The Ting-Ling club was entertained at the home of Miss Grace Titus, No. 130 Buchanan street, last evening. The club is composed of ten jolly young ladies.

Take It in Time.

Decay is natural, but it is often hastened by overtaxing the powers, by excesses, and by various violations of Nature's laws. The blood and nerves become affected and body and mind suffer extreme affliction. It has been, and is, by curing such cases as these that Dr. Greene, 148 State St., Chicago, Ill., the eminent specialist, has won his fame, which is world wide. Dr. Greene's treatment and remedies never fail. You can consult Dr. Greene personally or by letter, free. If you need a physician, see Dr. Greene or write him today. It will cost you nothing. He has developed the most perfect and wonderfully successful treatment through correspondence. He can cure you.

CONFESSED GUILT.

Benson McKinzie Goes to Prison for a Foul Crime.

He Wrought the Ruin of His Little Niece.

His Victim Was of the Tender Age of Fourteen.

Frank Iten Sues the City--Several Divorces Granted--General News of the Courts.

Benson McKinzie was arraigned before Judge O'Rourke in the circuit court this afternoon on a charge of incest. He entered a plea of guilty to the charge and was sentenced to the state prison for an indeterminate period of from two to five years. Being over thirty years of age he will serve his time in the penitentiary at Michigan City. McKinzie's crime was singularly revolting. He was living with his brother in Aboite township and while an inmate of that home he wrought the ruin of his brother's little daughter, Sylvia McKinzie, aged fourteen years.

ITEN CLAIMS SALARY.

Frank Iten, former inspector of the Fort Wayne Waterworks department, has sued the city for $100. He claims to have been engaged by resolution as inspector to serve three years from February 12, 1895. In December last his office was abolished, and he was thrown out of a position. He now sues for salary he alleges to be due up to February 12 of this year.

DIVORCES GRANTED.

In the spperior court, Monday evening, Sarah B. Jones was granted a divorce from David W. Jones. The entire proceeding was disposed of in quick time. The complaint of plaintiff was filed, the answer of defendant made and the decree granted all within fifteen minutes.

In the divorce suit of Addie F. Trautman vs. Frederick J. Trautman, Judge Dawson granted a decree to the husband, who filed a cross-complaint, in which he showed that his wife had abandoned him. The complaint of the plaintiff was withdrawn.

In the circuit court today Mamie Kohrn was granted a divorce from William F. Kohrn. It was shown that the couple became man and wife January 4, 1897, and that three days later the defendant abandoned her without cause.

OTHER COURT NEWS.

The commissioners today made their quarterly inspection of the county infirmary.

Fifty-seven bids for the repair of the gravel roads of Allen county have been received by the county commissioners. The contracts will not be awarded until next Friday.

The First National bank of Milwaukee sues H. W. Bond, in the superior court, for $2,175.50.

Milton Shirk has sued the Fort Wayne Electric corporation in the superior court for $6,600 on notes.

Edward Beston, a native of Germany, has been admitted to citizenship by the superior court.

LICENSED TO WED.

James W. Rhine and Alfaretta Castle.

Harry Rabel and Maggie Wambuch.

Sidney A. Mason and May L. Bauer.

CUBAN NEWS.

Report of General Pando's Recall Denied.

Brigadier General Rafeal Cabrera Said to Have Perished From Sickness--A Fight at Jibaro.

HAVANA, March 22.—The rumors that General Pando had been recalled and is awaited here with 6,000 men are pronounced to be without foundation. Generals Pando and Salcedo, it is given out, are continuing their operations in the province of Puerto Principe. The Spanish cruiser Alfonso XII entered the new floating dock today in order to have her bottom cleaned, but owing, it is said, to some difficulty with the electric batteries the dock, as this dispatch is sent, had not been floated.

It is announced from Spanish authorities that the insurgent brigadier, General Rafeal Cabrera, died recently from sickness at the farm of Las Olivas, in the district of Sanci Spiritius, province of Santa Clara.

In a skirmish at Jibaro, eight insurgents were killed, according to the Spanish report, and the government forces also lost eight men killed.

FATAL MATCH.

Jack Smith Slugs Henry Brown to Death.

The Tragedy the Result of a Six Round Fight Before the Palace Sporting Club.

TRENTON, N. J., March 22.—Henry Brown, the local pugilist who was injured in a boxing bout with Jack Smith at the Palace Sporting club last night, died this morning at St. Francis hospital. The doctors will hold a postmortem examination this afternoon to determine the exact cause of his death.

Smith is still in jail, being held without bail. No efforts have been made since Brown's death to rearrest Manager Jack Skelly and Referee Sam Austin, of the Palace Sporting club. They are now under $500 bail each to appear before Justice Jackson tonight for a hearing. Brown and Smith were scheduled to box six rounds as a preliminary go. At the close of the bout Brown had to be carried to his dressing room.

A physician was summoned and directed that the injured pugilist be removed to a hospital, where he died this morning.

HE WON'T CLOSE.

Clothing Clerks Having Trouble With H. Schiyer.

They Allege That the Clothing Merchant Failed to Carry Out an Agreement Made With Them.

The clothing clerks are having some trouble with H. Schiyer, who conducts a clothing house on East Main street, opposite the new court house.

Mr. Schiyer signed an agreement to close his store at 6 o'clock each evening and the members of the Clerk's union now allege that he daily violates this agreement. The matter was referred to the arbitration committee of the trades and labor council, who called on Mr. Schiyer last Saturday evening. No satisfactory agreement was reached with him and in conversation today with a member of the union THE SENTINEL was informed that they would begin a fight against the merchant at once. They have not signified the course they intend to follow.

LOCAL LINES.

Roy Myers, the little son of Mr. and Mrs. Charles Myers, of 46 West Berry street, is seriously ill.

Mrs. Jennie R. Welch, of East Berry street, has been summoned to Sidney, Ohio, by the critical illness of a relative. She left this morning for that point.

Mrs. Caroline Wessel and daughter, Mamie, have returned from Rensselaer, Ind., where they were visiting Mrs. Wessel's son, John Wessel, who is a student in the St. Joseph college at that place.

The revival services at the First Baptist church began last evening under very auspicious circumstances. This evening Mr. Knight will deliver an address. This series of meetings promises to be decidedly interesting.

Mr. and Mrs. E. Myers, of Ridgeville, Ind., who have been the guests of their son and family, Charles Myers, of 46 West Berry street, while Mr. E. Myers was taking treatment of Dr. A. P. Buchman the past week, returned home yesterday.

Architect Kendrick is drawing plans for the new undertaking establishment to be erected by Henry Wellman, on West Berry street. The building will be two stories high, 20x75 feet, and will be of pressed brick. When completed it will be the most commodious undertaking establishment in Fort Wayne.

In the office of Architect Kendrick this morning bids were opened for the new hotel which is to be erected by John P. Ross on the corner of West Main street and Maiden Lane. There were eleven bidders. The contract was not awarded, the bids being taken under advisement. The building will cost between $5,000 and $6,000.

Ronald, the two-year-old son of Mr. and Mrs. Louis Brown, died yesterday afternoon after a short illness of brain fever, at the residence of the family at 180 Montgomery street. The father is employed by the Pennsylvania company as a machinist.

The funeral will occur tomorrow afternoon at 2 o'clock from the residence, Rev. Henson officiating.

Last night F. D. Pearse gave his porter, a man named Bird, a check for $21.50 and asked him to get it cashed. Bird went out with the check and at 3 o'clock this afternoon had not returned. He had told several friends that he intended to go to Klondike Monday, but it is not believed that he started for the frozen north. Bird had $16 in wages coming to him and there was no reason that he should run away with the money secured from the check.

The street improvements decided upon last night aggregate 13,065 feet, fifty-five feet more than two miles and one-half. There are already down on the streets of Fort Wayne about two and three-quarters miles of asphalt pavement, making a total, when the above improvements are completed, of more than five miles of asphalt pavement in Fort Wayne. Calhoun street, with, 4,956 feet, is the longest asphalt street in the city. There may be other asphalt pavements put down this season and it would be no surprise if Fort Wayne had more than six miles before the snow flies again.

MACKINAW, Mich., March 22.—The ice in the straits is rapidly getting softer, but there has been no wind as yet to break it up. A heavy rain fell last night and at noon today it is warmer.

Ohio Baking Powder Tests.

Gen. S. H. Hurst, Food and Dairy Commissioner at the time of the official analyses, writes of

Cleveland's Baking Powder

"The analyses and comparison of the best eight brands of cream of tartar baking powder show that Cleveland's Superior baking powder is the richest in cream of tartar, and richest in gas product, or leavening power, and, having no unhealthful or impure element in it, it is absolutely the best and most desirable baking powder manufactured."

DISPATCHES from Washington say the president is wearing out under the strain of momentous events now transpiring. What the president needs is the tonic of decisive action.

FIVE weeks ago tonight the battleship Maine was destroyed in the harbor of Havana. Two hundred and sixty brave sailors of our navy went down unwarned and unready to watery graves. Five weeks is not long to wait upon the coming of events in the ordinary course, but it is a dreary, trying age to wait for the word that shall tell the nation whether her brave marines were victims of accident or the prey of assassins.

THE Holland submarine boat is behaving well in her trial trip under water, but she has not yet proved that she is able to navigate the bottom of the sea any better than the battleship Texas.

SECRETARY GAGE says he is of the opinion that 90 per cent. of the people of the United States believe the Maine was blown up by accident. Secretary Gage has mistaken the click of the stock-ticker for the beat of the public pulse.

THE United States is not the only pebble on the beach. The prospect of a war in the far east is some shades more promising of immediate results than our own war scare. The threat of hostilities may pass away without conflict having ensued, but there is a better outlook for war than has been apparent for many years. Great Britain is moving with vastly more energy than has marked her statesmanship at any former time since the eastern crisis has been pending. A Palmerston or Beaconsfield would have had a war in progress weeks ago.

FROM New York city are being exerted the most powerful influences to induce the government of the United States to maintain peace at any price. Wall street is the symbol of these influences. But with the great masses of the city's population the feeling is different. The national spirit is running high, running over, almost running riot. The theaters are crowded nightly with vociferous throngs for whom the astute managers are providing new incentives to outbursts of patriotic feeling. "The Star Spangled Banner," "Hail Columbia," "America," and other national songs are sung from the stage, and the vast audiences join in the choruses. There is cheering, shouting and even more mad antics by which men and women, too, for the matter of that, may relieve the danger from patriotism at high pressure. The people of New York city are all right. The stock ticker may guage the patriotism of some of her rich men, but it does not affect the populace.

SENATOR PROCTOR went to Cuba, it is now generally believed, as in some sort the personal representative of the president to observe the conditions that now prevail in the island. His story of what he saw almost passes belief, though it has been told in many forms by the newspaper correspondents. Senator Gallinger, who also has just returned from Cuba, says: "You can sign my name to any picture you may draw of utter wretchedness, destitution and hellishness in that country." These men are not writers for the much-damned "yellow" newspapers. What is the government going to do about Cuba?

FOR the government of the United States to postpone until next October or November any action to stop the war in Cuba is simply to connive at wholesale murder. Any ground for intervention six months hence is just as tenable for intervention at once. Any claims of humanity that may move this great and powerful republic to contemplate action in half a year cries out loudly that her hand be put forth now. To delay six months means to add another hundred thousand dead to the nearly half million victims of Spain's policy in Cuba. The war in Cuba should be stopped. The people should be allowed to return to their plantations and their employment where they may set about the long and dreary task of restoring plenty to the desolated island.

THE administration's procedure in the Maine disaster is mapped out. As soon as the report of the board of inquiry is received in Washington a copy of the findings and conclusions will be forwarded to the Spanish government at Madrid and suitable action asked. Then the report of the board of inquiry will be laid before congress and given to the public. It is stated in the same dispatches that no part of the report and no intimation of the finding has yet reached the executive authorities in Washington. A deal of inspired lying is being flashed over the wires from Washington. If no "intimation of the finding" of the board has reached the executive authorities at Washington these same executive authorities must be pretty much at sea as to what course of procedure is necessary. In the event the board of inquiry finds and concludes the destruction of the Maine was the result of Spanish treachery and that the Spanish government was quasi-party to and wholly responsible for the act, this government will hardly submit such finding to Spain with the request that the Madrid government take "appropriate action." The Washington government either knows what has been found, or it has outlined a program in the dark.

FLOODS DROWN OUT CROPS.

Vast Area of Land in Indiana Are Covered by Water.

WARSAW, Ind., March 22.—Farmers in this section are very much alarmed by the floods resultant upon the numerous heavy rains of the past few weeks. Not only are the crops in jeopardy, but in great measure they they are already completely drowned out. North of this city there are areas of many square miles which are one sheet of water.

Several washouts are reported on the Big Four tracks between here and Goshen, fifty feet being missing in one place. A number of road bridges in the northern portion of the county are missing, and grave fears are entertained for the railroad bridges between Wabash and Elkhart. The Tippecanoe river is very high, several streets in the western portion of this city being completely inundated.

Should the dam in Rock run at Oswego break, a large area of country will be ruined. The large number of lakes, creeks and rivers in this vicinity renders it particularly liable to suffer from floods.

STANDARD READY TO FIGHT.

Oil Company Will Take Gas Waste Question Into Federal Court.

INDIANAPOLIS, March 22.—The Standard Oil company is preparing to bring the question of gas waste before the federal court, and application may be made before Judge Baker asking that one of the Delaware cases be transferred to his tribunal.

The Standard made an application for such a transfer to the state judge, but it was refused on the ground that the subject of gas waste does not involve a federal question.

The next step will be to apply to the federal court on the ground that the Standard is a foreign corporation.

ELECT OFFICERG.

The Saxon Mutual Aid Society Chooses Leaders for the Term.

The Saxon Mutual Aid society has elected the following officers for the ensuing year;

President—Max Irmscher.
Vice-President—R. Brabrandt.
Recording Secretary — Charles Wilhelm.
Financial Secretary—Edwin Puff.
Treasurer—Paul Hertwig.
Directors—Charles Stein, Bruno Brabrandt and Anthony Ramm.

There is a shortage of $5,000 in the funds of the Elkhart school board that must be accounted for.

BOARD OF WORKS.

Resolutions Passed for the Paving of Streets.

All to be Paved With Asphalt—Asphalt Block for Columbia Street—Other Routine Business.

The board of works at its meeting yesterday afternoon passed resolutions for the paving of a number of streets. All except West Columbia street are to be paved with asphalt block. The board also decided to allow all high grades of asphalt an an opportunity to bid on the work and did not limit the specifications to one kind.

The Calhoun street pavement was covered in four resolutions, owing to differences in the street. From Superior street to Main will be paved with sheet asphalt, and the Main street crossing, owing to the numerous street railway tracks, will be paved with asphalt block. South from Main to Lewis sheet asphalt will again be used. South of Lewis street the main thoroughfare is somewhat narrower, an another resolution was required. The contract will be let as a whole, with separate specifications for the various divisions.

Other resolutions passed were the following:

For paving Columbia street, from Calhoun to Harrison, with asphalt block; for paving Creighton avenue, from Calhoun street to Lafayette, with asphalt; paving Suttenfield street, from Harrison to Lafayette, with asphalt; paving Woodland avenue, from Lafayette street to Hoagland avenue, with asphalt; paving Hoagland avenue, from DeWald street to Leith, with asphalt, and Harrison street, from DeWald to Woodland avenue, also with asphalt.

The engineer's plans for all these improvements were approved.

A petition asking that Brackenridge street be paved with asphalt from Calhoun street to Fairfield avenue, was received and filed.

A petition asking for a pavement in the alley between Wayne and Washington streets, from King to Comparet streets, was received and the engineer was instructed to prepare the plans.

Instructions were also issued for plans for paving with brick the alley between Main and Columbia streets, from Clinton to Barr, and for relaying sidewalks on the south side of Creighton avenue, from Smith street to Thomas.

Granting of sewer builders' bonds and permission to construct sidewalks completed the afternoon's business.

The Jenney Electric Light and Power company gave notice to the board that on Calhoun street it would erect arms for its street lamps, to take the place of the wires and poles which are now used.

PAUNCEFOTE'S DENIAL.

Declares Great Britain is Not Seeking the Hawaiian Islands.

WASHINGTON, March 22.—Much surprise has been created in England by the passage in the recent report of the senate committee on foreign relations respecting the attitude of Great Britain toward Hawaii, and Sir Julian Pauncefote, under instructions from his government, has informed the department of state that the committee of the senate is under an entire misapprehension, and that there is no reason whatever for the allegations contained in the statement.

The passage referred to states that "if Great Britain is not industriously and openly engaged in fomenting this concerted movement for the destruction of the republic and the restoration of the monarchy on its ruins, her agents and the princess, her protege, are kept conveniently near at hand to fasten her power upon the islands on the happening of any pretext for the protection of the lives and property of British subjects in Hawaii."

BRYAN TRUSTS TO M'KINLEY

Democratic Leader Says He Believes the President Will Satisfy All.

ST. LOUIS, March 22.—William J. Bryan was in town en route to Fayettville, Mo., where he spoke last night. When asked about the war outlook, he said:

"That is a question which I do not like to discuss, but I will say that I have every belief that the honor of the country will be maintained. The public will soon know the facts by the publication of the report of the court of inquiry. The American people have shown their trust in the president by the unanimous passage in both houses of congress of the $50,000,000 appropriation bill. I do not think that any man can fortell the outcome, but if war comes it will be for the maintenance of the honor and dignity of the people. I have every faith in the president and believe that he will proceed in a way that will be satisfactory to the American people."

PAYS RAILROAD FARE.

Representative Van Camp, of Michigan, Declines to Use a Pass.

ST. JOSEPH, Mich., March 22.—Representative S. L. Van Camp, who holds the usual legislative pass, paid his fare to Lansing. Van Camp is a firm believer in Governor Pingree's railway policy, and on these grounds refused to travel on the pass.

MINUS A HUSBAND.

Peculiar Predicament of Mrs. L. C. Dillman at Tacoma, Wash.

TACOMA, Wash., March 22.—Mrs. L. C. Dillman arrived in Spokane last week from Terre Haute, Ind., to meet her husband, and greatly to her surprise found that she had been divorced over a year, and that Mr. Dillman had remarried. Two years ago Mrs. Dillman went to Terre Haute, and last year Mr. Dillman obtained a divorce from her in the Spokane county court. The allegations in the complaint on which the divorce was obtained were peculiar. They were that Mrs. Dillman's former husband, who, as she supposed was dead, had suddenly reappeared. The complaint set forth that it was by mutual consent the application for the divorce was made. Mrs. Dillman says she never heard anything about her first husband coming back to earth, and that she did not consent to a divorce.

ROYAL BAKING POWDER

Absolutely Pure.

NORTHERN INDIANA NOTES.

Miami county is to have a new jail.

Tuesday, March 29, another large delegation of German Baptists (Dunkers) will leave Wabash county for North Dakota, where a large colony of this sect has settled.

The two-year-old son of Mr. and Mrs Ira Jacobson, of Goshen, stumbled and plunged in a bucket of boiling water and was so severely scalded that he will die.

Streams throughout Northern Indiana are reported out of their banks in consequence of the recent heavy rains, and considerable damage is said to be resulting.

A sixteen-pound pickerel which had been caught in a barb wire fence on some lowland overflowed by the St. Joseph river, was exhibited in Elkhart the other day.

The residence of Mrs. C. Staadecker, at Wabash, was destroyed by fire which had its origin in a gas-get that was burning too high. Loss, $2,000; insurance on house and furniture, $2,500.

The first test well drilled in Auburn for a water supply has after continuous pumping for a week shown an average daily capacity of over 200,000 gallons per twenty-four hours. A second well is now under way.

While Mr. and Mrs. Valentine Hoffman, of Elkhart county, were busy with the morning chores, Mrs. Hoffman discovered their home in flames, and Mr. Hoffman had great difficulty in rescuing their children, who were still asleep in an upper room.

Willie, the nine-year-old son of Henry Sievers, near Columbia City, was attacked by a large dog he attempted to caress and his face was terribly lacerated by the brute. A gash four inches in length was made in his cheek and one of his ears was nearly torn off.

Mrs. W. H. Eggleston is truant officer for Wabash county and part of Kosciusko county. She is the only woman in the state serving in such capacity and her record is one of the best. Mrs. Eggleston has successfully prosecuted several cases of violation of the truancy law.

A. W. Farling, of Rockcreek township, Wells county, is the possessor in fee simple of a most mysterious hole which he discovered in his woods a few days ago. The hole is about the diameter of a big tile, eight inches or such a matter, and it seems to have no bottom. While passing through his woods, Mr. Farling heard a roaring sound he could not account for and upon investigation found it was made by the water from the recent rain flowing into a hole. He looked about but could find no outlet and getting a long pole he shoved it into the hole to a depth of ten or twelve feet without reaching the bottom. He will make use of his discovory by running several tile ditches into it, thus getting away with his surplus water without crossing his neighbor's land.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials,

LEON WILL COME.

DeMontreville Accepts Manager O'Meara's Terms.

Plans for the New Grand Stand Have Been Prepared—It Will be Two Hundred Feet Long.

Manager Ed O'Meara today received a letter from Leon DeMontreville accepting the new terms offered him, and he will be ordered to report in Fort Wayne along with the other players on April 5. DeMontreville is at present in Washington and in his letter expresses the utmost confidence in his ability to make a first-class showing in the Inter-State league.

THE NEW PARK.

The plans for the new grand stand at the park on the Calhoun street flats have been agreed upon. The grand stand will be back of the catcher with seventy-five feet wings on each side of the main stand which will be fifty feet long, making a grand stand 200 feet in length. The seating capacity will be more that 1,000. The bleachers will be on the south side of the diamond, off of first base. There will be no bleachers along the third base line. Bad weather has prevented commencement of work on the grounds, but the contract, it is understood, has already been let for the building of the grand stand.

THE ATLANTIC LEAGUE.

PHILADELPHIA, Pa., March 22.—President Borrow, of the Atlantic Base Ball league, has announced that the schedule meeting of the league will be held at the Bingham house in this city on Thursday next. The league will adopt stringent rules against rowdyism on the field.

President Borrow considers the National league "Brush resolution" a little too strong and has recommended Hanlon's idea which compels the umpire to report to the league president any player who uses profane language or acts in any ungentlemanly manner during the game, the president to have the power to suspend the offender for from one to five days without pay.

NOTES.

The Daytons will report April 3 and 4.

Peter McBride, a pitcher, has been signed by Youngstown.

M. S. Allen, of Indianapolis, writes to Manager O'Meara recommending a pitcher named Leahr. He gives him a fine recommendation and says the youngster will be tried out by Manager Allen, of Indianapolis.

If Esterquest, the third baseman drafted by Cleveland from the Western association, proves a success, he will be the team's regular third baseman, Wallace playing short, McKean first, and Tebeau managing from the bench.

What has become of the far-reaching, fleet-footed Marty Hogan? Say, Marty, will you be wid us?—Dayton News. No, not on your tintype. Hogan will be a spectator this year. He has a Klondike here and is not anxious to play ball for Dayton.—Youngstown Exchange.

President Young, of the National league, has given out for publication the releases of the men under contract in the big league. John Blue, Bob Gilks and Bade Myers are released to Toledo and Manager Stroble feels very much relieved as he has telegraphed Robison several times within the past few days making inquiries regarding those players.

Cleveland has signed McAleer, who will play in the outfield. This will result in Beck being returned to Toledo as the Cleveland management has all the infielders they can use. Beck has been hitting like a fiend at Hot Springs and Manager Strobel will keep him there until the season opens to get the benefit of the baths. Cleveland will have a string on him for next season.

JACKSON-JEFFRIES.

The Latter is the Favorite in Betting Circles.

SAN FRANCISCO, Cal., March 22.—The betting on the Jackson-Jeffries fight, which occurs tonight, has been peculiar. While the straight betting is ten to seven with Jeffries the favorite, the Paris mutual's boards show Jackson to be the favorite at practically the same figures. The advance sale of seats already amounts to $6,000. At the request of the Olympic club, both men have been examined by a physician, who pronounces their condition absolutely perfect.

TO CURE A COLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. The genuine has L. B. Q. on each tablet.

AN EIGHT-HOUR DAY.

General Strike of Labor Unions in Prospect.

Organized Labor in St. Louis Will Inaugurate a Movement May 1 That Will Reach All Cities.

ST. LOUIS, Mo., March 22.—There is a general belief that May will see a strike of all organized labor in St. Louis for an eight-hour day and ten hours' pay. There will be a general movement for better hours and the unions have the backing of the Central Trades and Labor union. The bricklayers, not only of this city, but all over the country, will demand an eight-hour law on May 1, and it is also said the pressmen and machinists will follow. It is the general impression here that the strike will spread to every city in the Union. The Chicago Building Trades council is said to be agitating for shorter hours, and the building trades of Chicago will make a similar demand, to become effective May 1. There is considerable doubt expressed among the employers as to whether they will accede to the demands of the men.

GLASS MEN MAY STRIKE.

PITTSBURG, Pa., March 22.—The window glass industry in the gas belt of Indiana, is in a state of uproar at present, and it is hard to say what the result will be. A meeting of the wage committee of the American window glass committee was to have been held here Monday, but the date was changed to Wednesday. When the manufacturers meet they will try to pacify the fighting employes. At present there are four factories idle. They are at Eaton, North Anderson, Orestes and Hartford City. There is a probability that the strike will spread until it affects every factory in the west.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on Dreier Bros., druggists, and get a trial bottle free. Regular size 50c and $1. Every bottle guaranteed, or price refunded.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back, weak kidneys, marlaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c a bottle at Dreier & Bro.'s drug store.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, fetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dreier & Bro.

Mother's Friend

is a liniment for expectant mothers to use externally. It softens the muscles and causes them to expand without discomfort. If used during most of the period of pregnancy there will be no morning sickness, no rising breasts, no headache. When baby is born there will be little pain, no danger, and labor will be short and easy. $1 a bottle at druggists.

Send for a FREE copy of our illustrated book about MOTHER'S FRIEND.

The Bradfield Regulator Co., Atlanta, Ga.

Fishing for Health.

When a man breaks down with that dread disease, consumption, and recognizes his condition, he starts out to fish for health. He tries this thing and that thing. He consults this doctor and that doctor. He indulges in all kinds of absurd athletic exercises. He tries first one climate and then another. He tries the rest cure and the work cure. He grows steadily worse.

That is the story of most consumptives. Finally, when the consumptive dies, the doctor shrugs his shoulders and pronounces consumption incurable. A thirty years' test of Dr. Pierce's Golden Medical Discovery has demonstrated that it cures 98 per cent. of all cases of consumption, if taken in the earlier stages of the disease, before the lungs are too far wasted. In a consumptive there is a weaker spot than even the lungs. That spot is the stomach. A consumptive never really begins to die until his stomach gives out. The "Golden Medical Discovery" not only braces up the stomach, but acts directly on the lungs, healing them and driving out all impurities. Honest medicine dealers will not urge you to take an inferior substitute.

"I had a very bad cough, also night-sweats, and was almost in my grave with consumption," writes Mrs. Clara A. McIntyre, Box 22, Ashland, Middlesex Co., Mass. "A friend of mine who had died with consumption came to me in a dream and told me to take Dr. Pierce's Golden Medical Discovery, and, thank the Lord, I did so. By the time I had taken half of the first bottle I felt much better. I kept on until I had taken three bottles. That was all I needed. I got well and strong again."

Whenever constipation is one of the complicating causes of disease, the most perfect remedy is Dr. Pierce's Pleasant Pellets, which are always effective, yet absolutely mild and harmless. There never was any remedy invented which can take their place. They never gripe.

SEEDS FROM OUR GROUNDS TO YOURS SEEDS

WE no longer supply our seeds to dealers to sell again. At the same time, anyone who has bought our seeds of their local dealer during either 1896 or 1897 will be sent our **Manual of "Everything for the Garden" for 1898 FREE** provided they apply by letter and give the name of the **local merchant from whom they bought.** To all others, this magnificent **Manual**, every copy of which costs us **30 cents** to place in your hands, will be sent free on receipt of **10 cents** (stamps) to cover postage. Nothing like this **Manual** has ever been seen here or abroad; it is a book of **200** pages, contains **500** engravings of seeds and plants, mostly new, and these are supplemented by **6** full size colored plates of the best novelties of the season, finally,

OUR "SOUVENIR" SEED COLLECTION

will also be sent without charge to all applicants sending **10 cts.** for the **Manual** who will state where they saw this advertisement.

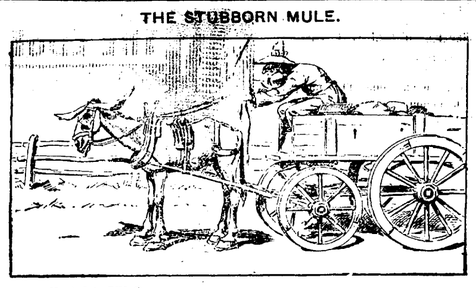
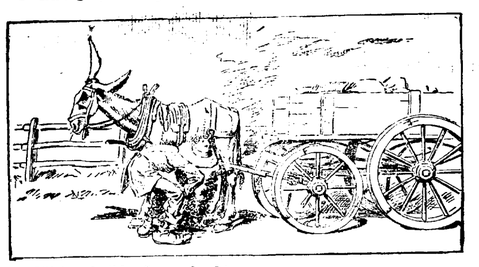
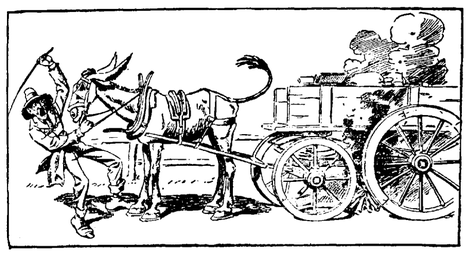
THE STUBBORN MULE.



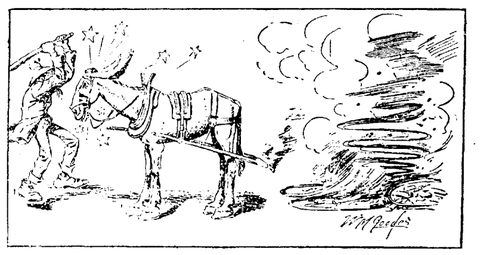
1—All right, I'll fix you.



2—I'll just build a fire under him.



3—The mule merely pulls the wagon over the fire and—



4—Curtain.

FOUR VICTIMS.

The Unfortunate Persons All Railway Men

And They Meet With Accident While in the Performance of Their Respective Duties.

There were three employes of the Pennsylvania company injured more or less seriously early this morning. Perhaps the most serious of the trio of accidents was the one which befell C. W. Larimore, a fireman, who was brought here on passenger train No. 39, at noon today.

Larimore's injuries are chiefly internal, and were received by jumping from his engine and falling against some ties. The engine was about to be derailed, and fearful lest it should turn over and seriously injure him, he sprang out with the above result. Dr. C. B. Stemen met the train at the depot and accompanied the injured man to his home where an examination was made. While his injuries are severe and painful, it is not thought that they will be permanent.

Edward D. Conway, a switchman in the east yards, was pinched between two cabooses at 1:30 o'clock this morning. He did not think he was badly injured and continued at his work for an hour. Then he was compelled to quit and return home, where Dr. George C. Stemen attended him and found that his injuries were internal They are not considered serious, however.

Eugene Benoit, an employe of the freight house, had the artery of his right arm severed this morning while handling some sheet iron. The unfortunate man was brought down town, where Dr. C. B. Stemen dressed the wound. The injury is not regarded very serious, but it will keep Mr. Benoit from his labors two or three weeks. Mr. Benoit was only this morning transferred from the Pennsylvania yards to the freight house.

Last night John C. Manary, of the Pittsburg car shop, was informed of an accident which happened to his youngest son, Arthur Manary, at Kalkaska, Mich., last January. The young man was employed as a brakeman on one of the lumber roads running out of that city and in attempting to make a coupling his right hand was so badly crushed between the deadwoods that it was necessary to amputate the member. The young man has since been stopping with his sister, on a farm six miles out from Kalkaska, and at his request his parents were not informed of the accident until last night, when they heard ofit through a friend who lives at Kalkaska.

PERSONAL AND OTHERWISE.

Nickel Plate engine 19 has gone to Stony Island for light repairs.

Conductors Wink and E. Hindall, of the Nickel Plate, are taking a few days' rest.

It is said that the next winter suits of the Pennsylvania trainmen will be a bottle green, similar in color to the uniforms now worn by the Chicago and Alton trainmen.

On account of the sickness of his wife H. Beck, a patternmaker at the Pittsburg shops, is kept from his work.

Master Mechanic J. E. Keegan, of Grand Rapids, Mich., was in the city over night.

W. W. Olmstead and his family left last night for their new home, St. Thomas, Ont.

After a few days' rest, Engineer O. Merritt has reported for duty on the Nickel Plate.

Pittsburg Freight Conductor H. Bower is taking a lay off to look after some private business.

The Panhandle, since March 1, has handled 2,000 loaded cars per day on the Pittsburg division.

An anti-scalping bill similar to that of New York state has been introduced in the Ohio legislature.

Charles Szink has recovered from his recent illness and is working again in the Pittsburg paint shop.

S. O. Worman, a freight brakeman on the Pitteburg, is at Kendallville today, attending a funeral.

Zan McDaniel left yesterday for Portland, Ore., where he will take a position in an electric light plant.

Ed. Stier, machinist at the Bass works, is on the sick list and has not been able to work since last Thursday.

William Brossard, who had a hand injured last week, resumed work in the Pittsburg blacksmith shop this morning.

Engine 68, from the Eel River division of the Wabash, was turned out of the shops in this city today, after being repaired.

P. B Bosworth, one of the foreman at the electric works, is confined to his home with tonsilitis. He was reported better this morning.

William Harkenrider is working again, after an absence on account of the sickness of his wife. He is employed in the Bass machine shop.

The Illinois Central has arranged to run its trains into Birmingham, Ala., operating over the Kansas City, Memphis and Birmingham road.

Gus Meyers, who is employed in the Bass blacksmith shop, is working again, after an absence on account of the death of his stepfather.

Engineer J. A. Swartz, who has been looking after some private business at Continental, Ohio, resumed his run on the Nickel Plate yesterday.

Blacksmith Owen Barry, of the Pittsburg shop, has recovered from the illness which kept him at home for a week. He reported for duty this morning.

The freight boycott of the Kansas City, Pittsburg and Gulf road has thus far proved a failure and the road is unharmed by the attack of the pooled lines.

Thirty-one thousand tons of steel rail, ranging in weight from seventy-five to eighty-five pounds to the yard, will be placed in the Baltimore and Ohio tracks this spring.

One of the senators in the Ohio legislature who has been bitterly fighting the railroads has been forced to admit that he was traveling on a clergyman's permit.

The gross earnings of the Lake Erie and Western this year showed an increase in January of $23,066; net earnings increased $12,686, and the surplus increased $10,486.

Conductor F. B. Maxwell, who has been running a local train out of Bellevue in place of the regular conductor, who was sick, has returned here and resumed a through freight run.

On Saturday the express companies reduced the price of carrying currency. The rate between New York and Chicago has for many years been $1 per $1,000; now it is but fifty cents.

On Saturday J. M. Savin, assistant general manager of the Kansas City, Pittsburg and Gulf, retired and is succeeded by W. A. Williams, of Kansas City, who will have his headquarters at Quincy, Ill.

Fred Foss, a laborer at the Nickel Plate coal docks, had a big growth removed from his head last Saturday. The operation was successfully performed and Mr. Foss expects to resume his work soon.

B. B. Weyer, tinner at the east car shops, last night went to Delphos, Ohio, accompanied by his wife, to attend the funeral of the lady's cousin, a young man who died suddenly of typhoid fever last Sunday.

August Tassler had the misfortune this morning to badly injure one of his knees by an accidental blow with a hammer. He works in the tank department of the Pittsburg shops, but will be disabled for several days.

Godfrey Warren, formerly a passenger conductor on the Chicago and Eastern Illinois road, later in charge of the company's terminals at Chicago, has accepted the position of general yard master of the Grand Trunk at Detroit.

The Chicago and Eastern Illinois road last week compromised with Guy Ackerman, of Brazil, who was injured in the wreck of the miners' train at Coal Bluff, paying him $2,000. This is the second case settled. There are twenty more who claim damages.

Robert Kelley, the Lake Erie engineer, who was injured in the wreck at the junction of the Pittsburg west of town last October, was down town yesterday for the first time since the accident. He is still crippled, but he is able to get about with some degree of comfort.

Old class E engine, 22, which is now too light for service on the Pennsylvania lines, has been sold to the G. A. W. railroad, and is being rebuilt and equipped for burning wood. It will present an odd appearance when the work is completed. The smoke stack is an immense affair, being five feet six inches in diameter. The engine has been renumbered No. 5.

Francis Burgess, the veteran machinist, has accepted a position with the Nickel Plate and will live in Stony Island, where he went yesterday. Mr. Burgess has worked at his trade many years in this city, first in the Pittsburg shops, then in the Wabash and later in the electric works. He helped to build the first Boone engine turned out of the Pennsylvania shops, and today firmly believes that for speed and general service, no better engine was ever produced.

A GOOD RUN.

Engineer Higgins and Fireman Powers, who brought in the first section of Wabash No. 2 and narrowly escaped injury in the wreck at the railway station Saturday morning, are credited with making one of the fastest runs ever made on the main line, says the Peru Journal. The train consisted of four cars and the illfated engine No. 174. According to a passenger on the train the distance of 103 miles between Tilton and this city, was covered in two hours and eleven minutes. At Attica the passenger noticed what time it was and when the train had passed over twenty miles he discovered that that distance had been covered in eighteen minutes. Another stretch of fifteen miles was made in thirteen minutes. Thus it will be seen that had not the eight stops between Tilton and Peru been made, the 103 miles would have been passed over at a greater rate of speed than sixty miles an hour.

A very pleasant social gathering was given by Miss Augusta Rudolph, of Spy Run avenue, in honor of her birthday anniversary, March 18th. Covers were laid for twelve. Table decorations were red and pink carnations and ferns. The feature of the dinner was a cake with a ring, thimble and coin in it, which caused much merriment. The evening was passed in music and singing. The hostess was delightfully surprised by receiving a beautiful silk umbrella from her guests.

CERFEW PETITION.

Communication From Berry Street Epworth League.

The Council Asked to Pass a Curfew Law --Will Arrange for the City Election at Council Meeting Tonight.

The city council will this evening be asked to pass a curfew law. This morning City Clerk Monning received a petition from the Epworth league of the Berry street M. E. church petitioning for the passage of a curfew law and calling attention to other cities where the enforcement of the law has reduced crime to a minimum. The petition was signed by Ella R. Willard, president; Rose E. Scarlet, secretary; Dr. J. H. Hetrick, Harriet F. Stemen, Rev. C. C. Cissell and 125 others.

WILL TALK ELECTION.

The election committee will tonight report the voting places and inspectors decided upon to the council. The report has been prepared, but inasmuch as there may be many changes made, City Clerk Monning would not give it out for advance publication.

ELECTION COMMISSIONERS.

Republican County Chairman Clapham today filed with City Clerk Monning the official appointment of Wilmer Leonard as the republican member of the board of election commissioners. The democratic member is William P. Breen. City Clerk Monning is the third member. These gentlemen have complete charge of all affairs pertaining to the election after the candidates have been certified to them.

MUNICIPAL NOTES.

The street and park employes were paid today.

Officer Pat Murphy is off duty suffering with measles.

No new cases of diphtheria or scarlet fever have been reported for a week.

RANDALL CHANGES.

Manager Ritchie Reappoints Two of the Popular Clerks.

Charles Rossington and Charles Jeffries Are the Lucky Men--Mr. Rossington Gives Up the Restaurant.

Manager Ritchie has made some changes at the Randall hotel which will make that hostelry more popular than ever with the traveling public.

C. J. Jellef yesterday resigned his position as day clerk and William Rodgerson also resigned as night clerk. Manager Ritchie appointed Charles Rossington to succeed Mr. Jellef and Charles Jeffries will succeed Mr. Rodgerson.

Messrs. Rossington and Jeffries were connected with the hotel when Dick Townsend was landlord and were popular with the traveling public. For some time past Mr. Rossington has been manager of the Nickel Plate restaurant, but last night telegraphed his resignation to Cleveland. Mr. Jeffries had charge of the Randall news stand.

Messrs. Jellef and Rodgerson made many friends during their stay in Fort Wayne and those friends will wish them success in whatever they may undertake.

WILL ENTHUSE TONIGHT.

Republicans Will Dedicate the New Campaign Headquarters.

The Fort Wayne republicans will tonight dedicate the new headquarters in the Foster block recently chosen by Chairman Clapham. Hon. R. S. Taylor, candidate for United States senator, and Dr. C. B. Stemen, candidate for congress from the Twelfth district, will deliver addresses. Dr. Stemen today made formal announcement of his candidacy for congress. A prominent republican remarked to THE SENTINEL today that the meeting was for the purpose of arousing enthusiasm in the approaching campaign.

It will be remembered that about a year ago a party of engineering students from Purdue university visited Fort Wayne, accompanied by Prof J. J. Flather, mechanical engineer and professor of machine design at Purdue. Fort Wayne's big manufacturing institutions, including the Fort Wayne Electric corporation's works, the Bass foundry, the Pennsylvania shops and other manufactories were inspected by the students. Next Monday morning the students of Purdue will leave the university on a similar tour, accompanied by Professor Flather. The itinerary includes Louisville, Cincinnati, Dayton, Hamilton and possibly other manufacturing cities. The class will be absent a week. Several Fort Wayne and Allen county students will be with the party.

The Duodecimo club will meet tomorrow at the home Mrs. Van Slyke, 106 East Berry street, instead of Mrs. Geismar, as stated heretofore stated.

Dr. Davis' Anti-Headache
Cures where all others fail. All druggists.

The Successful Remedy for NASAL CATARRH

must be non-irritating, easy of application, and one that will by its own action reach the inflamed and diseased surfaces.

ELY'S CREAM BALM combines the important requisites of quick action and specific curative powers with perfect safety to the patient. This agreeable remedy has mastered catarrh as nothing else has, and both physicans and patients freely concede this fact. All druggists cheerfully acknowledge that in it the acme of Pharmaceutical skill has been reached. The most distressing symptoms quickly yield to it. In acute cases the Balm imparts almost instant relief.

By Absorption.

Catarrhal sufferers should remember that Ely's Cream Balm is the only catarrh remedy which is quickly and thoroughly absorbed by the diseased membrane. It does not dry up the secretions, but changes them to a limpid and odorless condition, and finally to a natural and healthy character.

The Balm can be found at any drug store, or by sending 50 cents to Ely Brothers, 56 Warren S., New York, it will be mailed.

Full directions with each package.

Cream Balm opens and cleanses the nasal passages, allays inflammation, thereby stopping pain in the head, heals and protects the membrane and restores the senses of taste and smell. The Balm is applied directly into the nostrils.

HOME SEEKERS' EXCURSION

Via Wabash R. R. April 4, 5, 18 and 19, 1898.

Round trip tickets will be sold on above dates by the Wabash line and connections at low rates. Return limit twenty-one (21) days. A vast western territory is covered by these excursions. The Wabash has (4) four fast western trains daily (Sunday excepted), and is the only line running free reclining chair cars through to St. Louis and Kansas City.

For rates, routes, time of trains, conditions of tickets, and general information apply to Wabash ticket office, Phone No. 6. m 21-20t

Just received, a full line of nobby spring suitings, at lowest prices. Fit guaranteed. G. Schmidt, Merchant Tailor, 70 E. Main St. 11tf

Peter Hohnhaus, gang boss of the city street employes, ran a nail in one of his hands this morning and suffered a painful wound.

A. C. COCKE, Druggist.

Examine Them.

When you see a Suit of clothes which some one tells you is "just as good" as our $25 Suits, examine them. See if they are as well made, if the cloth is as good, if the character of workmanship all the way through is what you think it ought to be and above all see if the fit and style is there. It is possible to make clothes cheaper than we do, but it is not possible to make first-class clothes cheaper.

LABOR IS FINISHED.

Board of Inquiry Complete Its Report.

Finding Will be Forwarded at Once to Washington.

Admiral Sicard Talks Guardedly of the Matter.

It is Hinted That the Mystery of the Maine's Destruction is Not Solved by the Report.

KEY WEST, Fla., March 22.—The United States court of inquiry into the loss of the battleship Maine has at last finished its laborious work of investigating the disaster and has submitted its report to Rear Admiral Sicard.

He has pointed out some alterations which he considers necessary and the report will probably be taken to Washington today by Lieutenant Commander Marix, judge advocate of the court.

It is possible, however, that its arrival in Washington may be delayed several days longer, as Admiral Sicard said last night:

"I could scarcely say that the report will leave tomorrow. The court has practically finished its work; but some details may engage its attention long enough to keep the report here several days. I trust, however, that the navy department will have the documents in a very short time."

The decision reached by the court is still a matter of surmise. Perhaps some significance may be attached and conclusions drawn from a remark made by Admiral Sicard last night, when he said to a correspondent:

"The case of the Maine is most peculiar, perhaps the most peculiar which has ever occurred in the history of the world."

From the general tone of his remarks it might be inferred that the court findings do not definitely solve the mystery of the explosion.

This is further borne out by the admiral's statement that even after the report had been sent to Washington the department may require further investigation.

It is certain in any case, whether the report leaves today or later in the week, that the court will remain in existence at the call of Admiral Sicard, the convening and reviewing authority.

All rumors as to the report being already on its way to Washington were set at rest yesterday afternoon when Judge Advocate Marix walked into the hotel and asked for Admiral Sicard. Behind Lieutenant Commander Marix was an armed orderly with a large dispatch bag slung across his shoulder, and in that bag was the report of the Maine court of inquiry.

In the little waiting room of the hotel Lieutenant Maaix personally delivered the report to Admiral Sicard.

Commander West, of Admiral Sicard's staff, then joined Lieutenant Marix and the trio walked up stairs to the admiral's room. For two hours they were closeted together, going over the voluminous papers.

Lieutenant Commander Marix then personally took the papers on board the Nashville, which lies close off shore.

If the report can be finally prepared today, to the admiral's satisfaction, there is little doubt that it will be taken on the afternoon boat to Miami.

The feeling here last night, after it became known that the report had been turned to over the admiral, was one of relief. Naval officers and others discussed the possibilities of the court's findings until a late hour. The general impression continued to prevail that the court had found that the Maine was intentionally blown up, but no new reasons were adduced for this conclusion.

The United States battleships Texas and Massachusetts passed here at 5 o'clock yesterday afternoon on their way to Hampton Roads.

The United States battleship Indiana arrived here yesterday from the Tortugas Islands and in anchored beside the battleship Iowa and cruiser New York, six miles from shore.

AN ABSOLUTE FAILURE.

General Pando's Negotiations With Cubans Come to Naught.

HAVANA, via Key West, Fla., March 22.—It is now known positively that the negotiations between General Pando's delegates, Ramierez and Charviz, and Gen. Calixto Garcia and other prominent insurgents, in which the radical autonomiste made what are said to be final offers of practical independence, have proved an absolute failure.

No particulars have yet been received at the palace here as to the place or the particulars of the meeting, but that the negotiations have failed is shown by the resumption of hostilities.

General Pando's command is again moving eastward, purposing to carry out the plans in the province of Puerto Principe and Santiago de Cuba, made prior to the general's arrival at the city of Santiago de Cuba.

The fact that Gen. Maximo Gomez remains inside the Jucaro-Moron trocha and in General Pando's rear, makes the latter the subject of criticism upon the part of military men in Havana. However, in view of the fact that the details of the movements of the Spaniards and insurgents are meagre, all judgment passed is liable to revision on receipt of fuller information.

The insurgents recently captured and destroyed Fort Oleso in the district of San Juan Martinez, province of Pino del Rio. Five of the Spanish garrison were killed and five were wounded.

WAR INEVITABLE

Says Hon. D. S. Sleeper, Friend of the President.

CRIPPLE CREEK, Colo., March 22.—In an interview here Hon. D. S. Sleeper, speaker of the lower house of the Ohio legislature and a personal friend of President McKinley, said:

"I consider war with Spain inevitable. The matter has gone so far that diplomacy cannot avert a combat. The struggle will probably be very short. Cuba will be freed, the United States will get whatever indemnity she has demanded and that will end the matter."

THREATENS TO RESIGN.

Blanco Protests Against Torpedo Fleet Being Held at the Canaries.

NEW YORK, March 22.—A special dispatch from Havana today alleges that Captain General Blanco and Admiral Manterola have notified the Madrid government that they will resign their offices if the Spanish torpedo fleet is to be detained at the Canaries in obedience to the demand of President McKinley. Captain Eulate, of the cruiser Vizcaya, is also alleged to have sent a message to the Spanish admiralty similar in tenor to those of the captain general and Admiral Manterola.

TERRIFIC STORM.

Kansas and Nebraska in a Blizzard's Clasp.

The Thermometer Drops Seventy Degrees in Twelve Hours--Fruit and Vegetables Killed.

KANSAS CITY, Mo., March 22.—The most severe storm of the season is in progress in the southwest and west. Emporia, Kas., reports a fall of forty degrees in temperature since last night, and Wichita, Florence and other Kansas points make like reports.

Beatrice, Neb., reports a fall of seventy degrees in the past twelve hours. Vegetables have been ruined and it is believed that fruit crops have been seriously damaged.

EMPORIA, Kas., March 22.—A genuine blizzard prevailed today in this portion of Kansas with no indications at noon of its letting up. The fruit crop, it is claimed, has been badly damaged and in some sections will probably be destroyed. Early vegetables have been killed.

WOULD GAG THE PRESS.

Drastic Measure is Now Before the Senate of France.

PARIS, March 23.—Senator Morelet's espionage bill has been printed and distributed as urgent in the senate, where a great majority of the members favor the measure.

The bill is an outcome of the Zola trial. It fixes heavy penalties for espionage, varying according to the circumstances from death to a limited imprisonment, with a fine.

It provides that the trials of military and naval suspects shall always be held in secret, and that civilians shall be liable to the same method of trial at the discretion of the court.

The bill makes it a criminal offense for a newspaper to refer to such a trial, violations of this clause making the violators liable to penalties varying from imprisonment for a week and a fine of 1,000 francs to a month's imprisonment and a fine of 10,000 francs.

ROB A PRISON AND ESCAPE.

Two Inmates of a Massachusetts Institution Break All Records.

DEDHAM, Mass., March 22.—Two prisoners at the Dedham house of correction, having sawed their way out of their cell, overpowered a guard yesterday, and, after binding him, seized his keys, opened the safe, from which they took about $2,500 in money belonging to the officials and prisoners, and three revolvers and then escaped. The men who escaped are Patrick E Gill, of Hyde Park, who has served but a few months of a two years' sentence for larceny, and Charles Cook, of Walpole, who was awaiting a hearing before the grand jury on a charge of breaking and entering.

IN THE RUINS.

Several Men Crushed by Falling Walls.

ST. LOUIS, March 22.—It is reported that the May, Stein & Co. furniture warehouse at Olive and Nineteenth streets, have been blown down and several men are thought to be buried in the ruins. The building was partially burned last week.

'TWAS EXTERNAL.

Such Will be the Finding of the Court.

Spanish Minister Telegraphs the News to Madrid.

United States Officials Have Nothing to Divulge

Further Than to say That the Report of the Court of Inquiry is "Very Voluminous."

MADRID, March 22.—The Spanish government has received a dispatch from its minister at Washington, Senor Polo Y. Bernabe, saying that the report of the United States naval court appointed to inquire into the loss of the battleship Maine holds that the explosion was of external origin.

VERY VOLUMINOUS

Is all the Officials Will Say of the Report.

WASHINGTON, March 22.—After the cabinet meeting today the following statement was given out from an official source:

"It was understood at the cabinet meeting today that the report the of court of inquiry would probably be here Thursday or Friday; that it is a very voluminous document; that probably it will not be given to the press and to congress before Monday; that the president will require that much time for its proper consideration."

CABINET MEETING.

The President Confers With His Advisors --Secretary Long and Judge Day Meet.

WASHINGTON, March 22.—This being cabinet day, interest in the Spanish situation was centered in the meeting of the president and his advisors, as it was felt that with the report of the court of inquiry so near at hand a full understanding would be reached as to the course to be pursued when the document arrived. Prior to the meeting the statement was made that neither the report nor any part of it had reached the authorities here.

With the cabinet officers at the white house and with Mr. Roosevelt at the capitol before the senate naval committee, there was a lull in the usual activity about the navy department. Mr. Long had a busy hour, however, before he left for the cabinet meeting. Judge Day came over from the state department and had an extended talk with the naval secretary. President Orcutt, of the Newport News Ship Building company, also talked with Mr. Long on the plans for the launching of the new battleships Kearsarge and Kentucky at Newport News next Thursday.

Owing to the condition of affairs here Mr. Long is not likely to attend the launching, as Thursday is the day on which the report of the court of inquiry may be received. For the same reason many of the naval chiefs who had hoped to see these fine ships glide into the water will be unable to attend the launching.

A distinguished party is to leave here tomorrow night, however, including members of the senate and house naval committees and such naval officials as are not pressed by the present emergency conditions. Mr. Orcutt stated that the Kearsarge would leave the ways at 10 o'clock Thursday morning and the Kentucky one hour later.

Mrs. Herbert Winslow, wife of Lieutenant Commander Winslow, and Miss Christine Bradley, daughter of Governor Bradley, the two ladies who will christen the Kearsarge and Kentucky, respectfully, will reach Newport News tomorrow.

Governor Bradly and a party of 300 Kentuckians will arrive at the same time to do fitting honor to the ship which bears the name of their state. After the launching an hour will be given to inspecting the ship yard, including the work on the big battleship Illinois, and later a collation will be served. Mr. Orcutt speaks in the highest terms of the two new battleships, and says that on a pinch they could be made ready for service within eight months and possibly less.

THAT TORPEDO FLOTILLA.

It May Resume Its Journey to Havana Harbor.

MADRID, March 22.—The papers here publish full reports of the movements of the United States battleships and of the defensive preparations being made by the government of the United states.

It is reported that the Spanish warship selected to convey the torpedo flotilla has sailed from Carthagena for the Canary Island. It appears that the delay in the voyage of the torpedo boats is due to the fact that the Ariete, one of the Spanish torpedo boats, sustained some slight damage while on her way from Cadiz to the Canaries.

The Spanish newspapers advocate further strengthening of the naval squadron in Cuba, so not as to be caught at disadvantage in case of war.

The Heraldo thinks that in view of the "ostentations preparations" of the United States, Spain has full liberty to make similar preparations.

The Globe insists that injury has been done to Spain by the United States squadron remaining close to the seat of war. It gladly notes, however, that the verbal suggestio. s of Senor Polo Bernabe, the Spanish minister at Washington, to Secretary Sherman, have led to the withdrawal of a portion of the squadron, thus demonstrating the cordiality existing between the two countries.

WANTS ADVICE.

President McKinley Calls Senators Allison and Gorman in.

WASHINGTON, March 22.—Senators Allison and Gorman saw the president today by appointment. The president desired to consult them regarding the present Cuban situation, as he has been consulting others.

Little could be learned concerning the nature of the conference, but it is known that the president desires the views of leading men of both parties at this time on the situation, which is now considered very critical.

No official information as to the nature of the Maine report has been received, but it is believed that the assumption is that the board will say it was an outside explosion, without fixing responsibility.

SIGBEE UNBLAMED.

Commander of the Maine is Restored to Active Duty.

Action of the Navy Department Indicates That the Explosion Was Not an Accident.

HAVANA, via Key West, March 22.—That the American court of inquiry has decided that the explosion which destroyed the Maine was not an accident is assured by the news which has reached here that Captain Sigsbee has received secret instructions from Washington that he is to be returned to active duty.

This announcement sets all doubt aside, for the reason that any other finding than the destruction of the Maine by means of force, externally applied, would mean a court martial for Captain Sigsbee.

A verdict declaring the destruction of the Maine the result of an accident would be followed by the immediate request from Sigsbee for a court martial.

No date has been set for the captain's departure from Havana, but he understands that as soon as the wrecking of the Maine proceeds a little further he will be called to Washington and his ship will technically go out of commission.

As soon as the arrangements can be made and a crew of men and officers be gathered together, he will take charge of one of the additions to the navy.

Should President McKinley be successful in his efforts to purchase the O'Higgins and the San Martino Captain Sigsbee will be given command of one of those fighting monsters, so his friends have been assured.

It is stated by a friend of the officer that his friends, very close to President McKinley, knowing the strain he has been under, sent Captain Sigsbee the bare announcement that as soon as possible he will be given command of another ship.

ANXIOUS FOR WAR.

City Council of Indianapolis Passes Resolutions.

INDIANAPOLIS, March 22.—The common council of this city last night passed resolutions urging that war be declared against Spain if the naval court of inquiry reports that Spain directly or indirectly caused the Maine disaster, and that the United States should insist upon the evacuation of Cuba by the Spanish army and suitable indemnity for the loss of the Maine. The council also declared that it would "lend its moral assistance to the executive in declaration of hostilities." Councilmen Allen and Crall, (republicans) were the only members who voted against the resolution, holding that the subject was outside the province of the council.

VETERAN BANKER.

Truman P. Handy Lives to Reach the Age of Ninety-one.

CLEVELAND, Ohio, March 22.—The venerable Truman P. Handy, widely known as probably the oldest banker in active service in the United States, is critically ill at his home, No. 521 Euclid avenue.

Mr. Handy is over ninety-one years of age. About two weeks ago he contracted a cold, which was soon attended with complications.

Today he is unconscious, and, owing to his extreme age it is not believed he can recover

Louis Heilbroner went to Indianapolis today on business connected with the summer entertainments at Robison park. He will visit Cincinnati before returning home.

THE NEW MAINE.

Another Ship Will Bear That Name.

The Naval Appropriation Contemplates Its Construction.

Naked Ship Will Cost Nearly $3,000,000

And Will be Built Upon Lines Which Governed the Construction of the Ship Recently Destroyed.

WASHINGTON, March 22.—The naval appropriations bill, as reported to the house today, carries a total of $35,683,060, an increase over last year of $3,764,432 and over the current estimates of $2,514,824. For the increase of the navy the bill allows to be constructed by contract three sea-going coast-line battleships, designed to carry the heaviest armor and most powerful ordnance, a displacement of 11,000 tons, with the highest practicable speed for their class, to cost, exclusive of armament, not exceeding $3,000,000 each, one to be named the Maine; six torpedo boats, 150 tons displacement, and six torpedo-boat destrovers, about 350 tons displacement, to cost not exceeding $2,310,000; and one gun boat to take the place of the United States ship Michigan, to cost, exclusive of armament, not to exceed $250,000, to be built on the great lakes.

One of these sea going battleships is to be built on the Pacific coast. The contracts for the construction of all these vessels are to be made within sixty days of the enactment of the bill.

Toward the construction of four timber dry docks, $200,000 each is allowed, each to be not less that 700 feet long, and sufficient to meet probable future requirements of the largest vessels.

They are to be located at Portsmouth, N. H.; Boston, Mass.; League Island, Pa., and Mare Island, Cala., the total cost when completed not to exceed $850,000 each.

At Algiers, La., a dry dock is to be built, but is to be a double sided steel floating type known as the combined floating and graving self-docking dock, capable of lifting a vessel of 15,000 tons displacement and twenty-seven feet draft of water, to cost, including moorings and wharfs, $850,000, of which $200,000 is appropriated this year.

The bill directs the appointment of a board of naval officers to determine the desirability of locating and constructing a dry dock in the harbor of Galveston, Texas, and to report to congress at the next session.

MINE EXPLOSION.

Two Dead and Others Badly Injured.

All the Imprisoned Miners Are Rescued--A List of the Unfortunate Men.

PITTSBURG, Pa., March 22.—An explosion occurred at Manown coal mine, near Monongahela City, today. The known dead and injured are:

Michael Tolie, body burned badly and hardly recognizable.

Unknown foreigner, found floating in the river an hour after the explosion.

Alex Deogdon, miner, badly burned about the head and face. Serious condition and will hardly recover.

J. Fulton, miner, badly burned and bruised about the body, may recover.

Tony Fulton, son of the former and his helper, badly burned; likely to recover.

Two unknown Slavs, badly burned. In an unconscious state and their names cannot be learned.

A later report says that the imprisoned miners were rescued uninjured.

GREAT SWINDLE

In Which Government Employes Are Participants.

Fraudulent Time Checks for Service Never Performed Are Sold in the Sum of $300,000.

WASHINGTON, March 22.—Information has reached the government, through a number of banks at St. Paul, Minn, that during the past year and more other nearby banks have been made the victims of colossal frauds through the suspected collusion of government clerks connected with the commission having in charge the improvements of the Uppor Mississippi river. Full details of the affairs have not yet reached the government, but the statements submitted by the banks indicate that $300,000 or more has been procurred from them through fraudulent time checks for services never performed. Copies of some of these time checks are said to be signed by J. H. Southall, chief clerk of the United States engineers office at St. Paul, and are dated at different times during the year 1897.

Others, it is understood, are dated in 1896. How the banks came to be imposed upon to the extent indicated, and why the checks have been withheld until this time, cannot be even conjectured.

It is understood that the banks will make a claim for reimbursement, but the law is said here to be clearly against this contention.

The government will begin a searching investigation at once into the whole matter.

ARE GATHERING.

Methodist Ministers Assembling at Hartford City.

North Indiana Conference Begins Wednesday--Faculty and Students of Taylor University Conduct Services.

HARTFORD CITY, Ind., March 22.—Although the fifty fifth session of the M. E. conference, which convenes in this city, does not begin proper until Wednesday, every train since yesterday brought in ministers from all parts of the conference district, and the indications point to a large attendance. Last night the faculty and students of Taylor university were accorded the honor of conducting the preliminary services of the session. Some of the most prominent educators of the church were present with a bevy of students from the college. Rev. John R. Wright, D. D., presided. Able addresses were made by President T. C. Reade, Professor Anderson and Sam Small. Taylor university is the successor of the Fort Wayne college, and recognized as an official Methodist institution of learning. It is appraised at $52,000.

INSPECT BUILDINGS.

The Carpenters Want a Building Inspector Appointed.

Copy of an Ordinance Now in the Hands of Mayor Scherer--Endorsed by Organized Labor.

The carpenters of Fort Wayne have for sometime been agitating the passage of an ordinance providing for the appointment of a building inspector. The matter was brought before the Trades and Labor council and the legislative committee was instructed to investigate and assist the carpenters to secure the passage of such an ordinance. A copy of the Indianapolis ordinance has been secured and is now in the hands of Mayor Scherer. The law, if adopted, provides for the appointment of a man to inpect every new building erected in the city. The journeymen carpenters, who are behind the bill, assert that such a law is almost a necessity in Fort Wayne.

LOCAL LINES.

F. F. Hilbreth, of Terre Haute, is registered at the Randall.

Charles Barrett is home from Purdue to spend his vacation.

Judge E. C. Vaughn, of Bluffton, was in the city today on legal business.

Dr. Van Nuye, of Van Wert, Ohio, was registered at the New Avelino hotel today.

Col. Robert G. Ingersoll will lecture at Princess rink Friday, April 29; subject, "Liberty."

Mrs. E. L. Reynolds, of 132½ Broadway, lies seriously ill at the residence of D. Nostle, on Creighton avenue.

H. K. Scott and C. J. Pillird, business men of Angola, were in the city last night and today on business.

Daniel Kehm and Daniel Haley have purchased the house of call on Columbia street formerly conducted by Bert Champion.

Misses Jennie Congleton and Grace Peterson, of Decatur, are the guests of Miss Cora Morre, of Suttenfield street, this city.

Dr. L. T. Sturgis is much improved in health after several months' confinement to his home and is able to be about the streets.

Lew Clark, of Chicago, is in the city visiting his sons, Thomas and Charles. He was the landlord of the old Oliver house in Fort Wayne fifteen years ago.

The Ting-Ling club was entertained at the home of Miss Grace Titus, No. 130 Buchanan street, last evening. The club is composed of ten jolly young ladies.

Take It In Time.

Decay is natural, but it is often hastened by overtaxing the powers, by excesses, and by various violations of Nature's laws. The blood and nerves become affected and body and mind suffer extreme affliction. It has been, and is, by curing such cases as these that Dr. Greene, 118 State St., Chicago, Ill., the eminent specialist, has won his fame, which is world wide. Dr Greene's treatment and remedies never fail. You can consult Dr. Greene personally or by letter, free. If you need a physician see Dr Greene or write him today. It will cost you nothing. He has developed the most perfect and wonderfully successful treatment through correspondence. He can cure you.

Silk and wool sweaters with golf hose to match at Reuben S. Patterson's.

CONFESSED GUILT.

Benson McKinzie Goes to Prison for a Foul Crime.

He Wrought the Ruin of His Little Niece.

His Victim Was of the Tender Age of Fourteen.

Frank Iten Sues the City--Several Divorces Granted--General News of the Courts.

Benson McKinzie was arraigned before Judge O'Rourke in the circuit court this afternoon on a charge of incest. He entered a plea of guilty to the charge and was sentenced to the state prison for an indeterminate period of from two to five years. Being over thirty years of age he will serve his time in the penitentiary at Michigan City. McKinzie's crime was singularly revolting. He was living with his brother in Aboite township and while an inmate of that home he wrought the ruin of his brother's little daughter, Sylvia McKinzie, aged fourteen years.

ITEN CLAIMS SALARY.

Frank Iten, former inspector of the Fort Wayne Waterworks department, has sued the city for $400. He claims to have been engaged by resolution as inspector to serve three years from February 12, 1895. In December last his office was abolished, and he was thrown out of a position. He now sues for salary he alleges to be due up to February 12 of this year.

DIVORCES GRANTED.

In the superior court, Monday evening, Sarah B. Jones was granted a divorce from David W. Jones. The entire proceeding was disposed of in quick time. The complaint of plaintiff was filed, the answer of defendant made and the decree granted all within fifteen minutes.

In the divorce suit of Addie F. Trautman vs. Frederick J. Trautman, Judge Dawson granted a decree to the husband, who filed a cross-complaint, in which he showed that his wife had abandoned him. The complaint of the plaintiff was withdrawn.

In the circuit court today Mamie Kohrn was granted a divorce from William F. Kohrn. It was shown that the couple became man and wife January 4, 1897, and that three days later the defendant abandoned her without cause.

OTHER COURT NEWS.

The commissioners today made their quarterly inspection of the county infirmary.

Fifty-seven bids for the repair of the gravel roads of Allen county have been received by the county commissioners. The contracts will not be awarded until next Friday.

The First National bank of Milwaukee sues H. W. Bond, in the superior court, for $2,175.50.

Milton Shirk has sued the Fort Wayne Electric corporation in the superior court for $6,500 on notes.

Edward Beston, a native of Germany, has been admitted to citizenship by the superior court.

LICENSED TO WED.

CUBAN NEWS.

Report of General Pando's Recall Denied.

Brigadier General Rafeal Cabrera Said to Have Perished From Sickness--A Fight at Jibaro.

HAVANA, March 22.—The rumors that General Pando had been recalled and is awaited here with 6,000 men are pronounced to be without foundation. Generals Pando and Salcedo, it is given out, are continuing their operations in the province of Puerto Principe. The Spanish cruiser Alfonso XII entered the new floating dock today in order to have her bottom cleaned, but owing, it is said, to some difficulty with the electric batteries the dock, as this dispatch is sent, had not been floated.

It is announced from Spanish authorities that the insurgent brigadier, General Rafeal Cabrera, died recently from sickness at the farm of Las Olivas, in the district of Sanct Spiritius, province of Santa Clara.

In a skirmish at Jibaro, eight insurgents were killed, according to the Spanish report, and the government forces also lost eight men killed.

FATAL MATCH.

Jack Smith Slugs Henry Brown to Death.

The Tragedy the Result of a Six Round Fight Before the Palace Sporting Club.

TRENTON, N. J., March 22.—Henry Brown, the local pugilist who was injured in a boxing bout with Jack Smith at the Palace Sporting club last night, died this morning at St. Francis hospital. The doctors will hold a postmortem examination this afternoon to determine the exact cause of his death.

Smith is still in jail, being held without bail. No efforts have been made since Brown's death to rearrest Manager Jack Skelly and Referee Sam Austin, of the Palace Sporting club. They are now under $500 bail each to appear before Justice Jackson tonight for a hearing. Brown and Smith were scheduled to box six rounds as a preliminary go. At the close of the bout Brown had to be carried to his dressing room.

A physician was summoned and directed that the injured pugilist be removed to a hospital, where he died this morning.

HE WON'T CLOSE,

Clothing Clerks Having Trouble With H. Schiyer.

They Allege That the Clothing Merchant Failed to Carry Out an Agreement Made With Them.

The clothing clerks are having some trouble with H. Schiyer, who conducts a clothing house on East Main street, opposite the new court house.

Mr. Schiyer signed an agreement to close his store at 6 o'clock each evening and the members of the Clerk's union now allege that he daily violates this agreement. The matter was referred to the arbitration committee of the trades and labor council, who called on Mr. Schiyer last Saturday evening. No satisfactory agreement was reached with him and in conversation today with a member of the union THE SENTINEL was informed that they would begin a fight against the merchant at once. They have not signified the course they intend to follow.

LOCAL LINES.

Roy Myers, the little son of Mr. and Mrs. Charles Myers, of 46 West Berry street, is seriously ill.

Mrs. Jennie R. Welch, of East Berry street, has been summoned to Sidney, Ohio, by the critical illness of a relative. She left this morning for that point.

Mrs. Caroline Wessel and daughter, Mamie, have returned from Rensselaer, Ind., where they were visiting Mrs. Wessel's son, John Wessel, who is a student in the St. Joseph college at that place.

The revival services at the First Baptist church began last evening under very auspicious circumstances. This evening Mr. Knight will deliver an address. This series of meetings promises to be decidedly interesting.

Mr. and Mrs. E. Myers, of Ridgeville, Ind., who have been the guests of their son and family, Charles Myers, of 46 West Berry street, while Mr. E. Myers was taking treatment of Dr. A. P. Buchman the past week, returned home yesterday.

Architect Kendrick is drawing plans for the new undertaking establishment to be erected by Henry Wellman, on West Berry street. The building will be two stories high, 20x75 feet, and will be of pressed brick. When completed it will be the most commodious undertaking establishment in Fort Wayne.

In the office of Architect Kendrick this morning bids were opened for the new hotel which is to be erected by John P. Ross on the corner of West Main street and Maiden Lane. There were eleven bidders. The contract was not awarded, the bids being taken under advisement. The building will cost between $5,000 and $6,000.

Ronald, the two-year-old son of Mr. and Mrs. Louis Brown, died yesterday afternoon after a short illness of brain fever, at the residence of the family at 180 Montgomery street. The father is employed by the Pennsylvania company as a machinist.

The funeral will occur tomorrow afternoon at 2 o'clock from the residence, Rev. Henson officiating.

Last night F. D. Pearse gave his porter, a man named Bird, a check for $21.50 and asked him to get it cashed. Bird went out with the check and at 3 o'clock this afternoon had not returned. He had told several friends that he intended to go to Klondike Monday, but it is not believed that he started for the frozen north. Bird had $16 in wages coming to him and there was no reason that he should run away with the money secured from the check.

The street improvements decided upon last night aggregate 13,065 feet, fifty-five feet more than two miles and one-half. There are already down on the streets of Fort Wayne about two and three-quarters miles of asphalt pavement, making a total, when the above improvements are completed, of more than five miles of asphalt pavement in Fort Wayne Calhoun street, with, 4,956 feet, is the longest asphalt street in the city. There may be other asphalt pavements put down this season and it would be no surprise if Fort Wayne had more than six miles before the snow flies again.

MACKINAW, Mich., March 22.—The ice in the straits is rapidly getting softer, but there has been no wind as yet to break it up. A heavy rain fell last night and at noon today it is warmer.

Ohio Baking Powder Tests.

Gen. S. H. Hurst, Food and Dairy Commissioner at the time of the official analyses, writes of

Cleveland's Baking Powder

"The analyses and comparison of the best eight brands of cream of tartar baking powder show that Cleveland's Superior baking powder is the richest in cream of tartar, and richest in gas product, or leavening power, and, having no unhealthful or impure element in it, it is absolutely the best and most desirable baking powder manufactured."

DISPATCHES from Washington say the president is wearing out under the strain of momentous events now transpiring. What the president needs is the tonic of decisive action.

FIVE weeks ago tonight the battleship Maine was destroyed in the harbor of Havana. Two hundred and sixty brave sailors of our navy went down unwarned and unready to watery graves. Five weeks is not long to wait upon the coming of events in the ordinary course, but it is a dreary, trying age to wait for the word that shall tell the nation whether her brave marines were victims of accident or the prey of assassins.

THE Holland submarine boat is behaving well in her trial trip under water, but she has not yet proved that she is able to navigate the bottom of the sea any better than the battleship Texas.

SECRETARY GAGE says he is of the opinion that 90 per cent. of the people of the United States believe the Maine was blown up by accident. Secretary Gage has mistaken the click of the stock-ticker for the beat of the public pulse.

THE United States is not the only pebble on the beach. The prospect of a war in the far east is some shades more promising of immediate results than our own war scare. The threat of hostilities may pass away without conflict having ensued, but there is a better outlook for war than has been apparent for many years. Great Britain is moving with vastly more energy than has marked her statesmanship at any former time since the eastern crisis has been pending. A Palmerston or Beaconsfield would have had a war in progress weeks ago.

FROM New York city are being exerted the most powerful influences to induce the government of the United States to maintain peace at any price. Wall street is the symbol of these influences. But with the great masses of the city's population the feeling is different. The national spirit is running high, running over, almost running riot. The theaters are crowded nightly with vociferous throngs for whom the astute managers are providing new incentives to outbursts of patriotic feeling. "The Star Spangled Banner," "Hail Columbia," "America," and other national songs are sung from the stage, and the vast audiences join in the choruses. There is cheering, shouting and even more mad antics by which men and women, too, for the matter of that, may relieve the danger from patriotism at high pressure. The people of New York city are all right. The stock ticker may guage the patriotism of some of her rich men, but it does not offer a true populace.

SENATOR PROCTOR, went to Cuba, it is now generally believed, as in some sort the personal representative of the president to observe the conditions that now prevail in the island. His story of what he saw almost passes belief, though it has been told in many forms by the newspaper correspondents. Senator Gallinger, who also has just returned from Cuba, says, "You can sign my name to any picture you may draw of utter wretchedness, destitution and hellishness in that country." These men are not writers for the much-damned "yellow" newspapers. What is the government going to do about Cuba?

FOR the government of the United States to postpone until next October or November any action to stop the war in Cuba is simply to connive at wholesale murder. Any ground for intervention six months hence is just as tenable for intervention at once. Any claims of humanity that may move this great and powerful republic to contemplate action in half a year cries out loudly that her hand be put forth now. To delay six months means to add another hundred thousand dead to the nearly half million victims of Spain's policy in Cuba. The war in Cuba should be stopped. The people should be allowed to return to their plantations and their employment where they may set about the long and dreary task of restoring plenty to the desolated island.

THE administration's procedure in the Maine disaster is mapped out. As soon as the report of the board of inquiry is received in Washington a copy of the findings and conclusions will be forwarded to the Spanish government at Madrid and suitable action asked. Then the report of the board of inquiry will be laid before congress and given to the public. It is stated in the same dispatches that no part of the report and no intimation of the finding has yet reached the executive authorities in Washington. A deal of inspired lying is being flashed over the wires from Washington. If no "intimation of the finding" of the board has reached the executive authorities at Washington these same executive authorities must be pretty much at sea as to what course of procedure is necessary. In the event the board of inquiry finds and concludes the destruction of the Maine was the result of Spanish treachery and that the Spanish government was quasi-party to and wholly responsible for the act, this government will hardly submit such finding to Spain with the request that the Madrid government take "appropriate action." The Washington government either knows what has been found, or it has outlined a program in the dark.

34 & 36 CALHOUN ST

BOARD OF WORKS.

Resolutions Passed for the Paving of Streets.

All to be Paved With Asphalt--Asphalt Block for Columbia Street--Other Routine Business.

The board of works at its meeting yesterday afternoon passed resolutions for the paving of a number of streets. All except West Columbia street are to be paved with asphalt block. The board also decided to allow all high grades of asphalt an opportunity to bid on the work and did not limit the specifications to one kind.

The Calhoun street pavement was covered in four resolutions, owing to differences in the street. From Superior street to Main will be paved with sheet asphalt, and the Main street crossing, owing to the numerous street railway tracks, will be paved with asphalt block. South from Main to Lewis sheet asphalt will again be used. South of Lewis street the main thoroughfare is somewhat narrower, an another resolution was required. The contract will be let as a whole, with separate specifications for the various divisions.

Other resolutions passed were the following:

For paving Columbia street, from Calhoun to Harrison, with asphalt block, for paving Creighton avenue, from Calhoun street to Lafayette, with asphalt; paving Suttenfield street, from Harrison to Lafayette, with asphalt; paving Woodland avenue, from Lafayette street to Hoagland avenue, with asphalt; paving Hoagland avenue, from DeWald street to Leith, with asphalt, and Harrison street, from DeWald to Woodland avenue, also with asphalt.

The engineer's plans for all these improvements were approved.

A petition asking that Brackenridge street be paved with asphalt from Calhoun street to Fairfield avenue, was received and filed.

A petition asking for a pavement in the alley between Wayne and Washington streets, from King to Comparet streets, was received and the engineer was instructed to prepare the plans.

Instructions were also issued for plans for paving with brick the alley between Main and Columbia streets, from Clinton to Barr, and for relaying sidewalks on the south side of Creighton avenue, from Smith street to Thomas.

Granting of sewer builders' bonds and permission to construct sidewalks completed the afternoon's business.

The Jenney Electric Light and Power company gave notice to the board that on Calhoun street it would erect arms for its street lamps, to take the place of the wires and poles which are now used.

PAUNCEFOTE'S DENIAL.

Declares Great Britain is Not Seeking the Hawaiian Islands.

WASHINGTON, March 22.—Much surprise has been created in England by the passage in the recent report of the senate committee on foreign relations respecting the attitude of Great Britain toward Hawaii, and Sir Julian Pauncefote, under instructions from his government, has informed the department of state that the committee of the senate is under an entire misapprehension, and that there is no reason whatever for the allegations contained in the statement.

The passage referred to states that "if Great Britain is not industriously and openly engaged in fomenting this concerted movement for the destruction of the republic and the restoration of the monarchy on its ruins, her agents and the princess, her protege, are kept conveniently near at hand to fasten her power upon the islands on the happening of any pretext for the protection of the lives and property of British subjects in Hawaii."

BRYAN TRUSTS TO M'KINLEY

Democratic Leader Says He Believes the President Will Satisfy All.

ST. LOUIS, March 22.—William J. Bryan was in town en route to Fayettville, Mo., where he spoke last night. When asked about the war outlook, he said:

"That is a question which I do not like to discuss, but I will say that I have every belief that the honor of the country will be maintained. The public will soon know the facts by the publication of the report of the court of inquiry. The American people have shown their trust in the president by the unanimous passage in both houses of congress of the $50,000,000 appropriation bill. I do not think that any man can fortell the outcome, but if war comes it will be for the maintenance of the honor and dignity of the people. I have every faith in the president and believe that he will proceed in a way that will be satisfactory to the American people."

PAYS RAILROAD FARE.

Representative Van Camp, of Michigan, Declines to Use a Pass.

ST. JOSEPH, Mich., March 22.—Representative S. L. Van Camp, who holds the usual legislative pass, paid his fare to Lansing. Van Camp is a firm believer in Governor Pingree's railway policy, and on these grounds refused to travel on the pass.

MINUS A HUSBAND.

Peculiar Predicament of Mrs. L. C. Dillman at Tacoma, Wash.

TACOMA, Wash., March 22.—Mrs L. C. Dillman arrived in Spokane last week from Terre Haute, Ind., to meet her husband, and greatly to her surprise found that she had been divorced over a year, and that Mr. Dillman had remarried. Two years ago Mrs. Dillman went to Terre Haute, and last year Mr. Dillman obtained a divorce from her in the Spokane county court. The allegations in the complaint on which the divorce was obtained were peculiar. They were that Mrs. Dillman's former husband, who, as she supposed was dead, had suddenly reappeared. The complaint set forth that it was by mutual consent the application for the divorce was made. Mrs Dillman says she never heard anything about her first husband coming back to earth, and that she did not consent to a divorce.

FLOODS DROWN OUT CROPS.

Vast Area of Land in Indiana Are Covered by Water.

WARSAW, Ind., March 22.—Farmers in this section are very much alarmed by the floods resultant upon the numerous heavy rains of the past few weeks. Not only are the crops in jeopardy, but in great measure they they are already completely drowned out. North of this city there are areas of many square miles which are one sheet of water.

Several washouts are reported on the Big Four tracks between here and Goshen, fifty feet being missing in one place. A number of road bridges in the northern portion of the county are missing, and grave fears are entertained for the railroad bridges between Wabash and Elkhart. The Tippecanoe river is very high, several streets in the western portion of this city being completely inundated.

Should the dam in Rock run at Oswego break, a large area of country will be ruined. The large number of lakes, creeks and rivers in this vicinity renders it particularly liable to suffer from floods.

STANDARD READY TO FIGHT.

Oil Company Will Take Gas Waste Question Into Federal Court.

INDIANAPOLIS, March 22.—The Standard Oil company is preparing to bring the question of gas waste before the federal court, and application may be made before Judge Baker asking that one of the Delaware cases be transferred to his tribunal.

The Standard made an application for such a transfer to the state judge, but it was refused on the ground that the subject of gas waste does not involve a federal question.

The next step will be to apply to the federal court on the ground that the Standard is a foreign corporation.

ELECT OFFICERG.

The Saxon Mutual Aid Society Chooses Leaders for the Term.

The Saxon Mutual Aid society has elected the following officers for the ensuing year;

President—Max Irmscher.

Vice-President—R. Brabrandt.

Recording Secretary — Charles Wilhelm.

Financial Secretary—Edwin Puff.

Treasurer—Paul Hertwig.

Directors—Charles Stein, Bruno Brabrandt and Anthony Ramm.

There is a shortage of $5,000 in the funds of the Elkhart school board that must be accounted for.

ROYAL

BAKING POWDER

Absolutely Pure.

NORTHERN INDIANA NOTES.

Miami county is to have a new jail.

Tuesday, March 29, another large delegation of German Baptists (Dunkers) will leave Wabash county for North Dakota, where a large colony of this sect has settled.

The two-year-old son of Mr. and Mrs. Ira Jacobson, of Goshen, stumbled and plunged in a bucket of boiling water and was so severely scalded that he will die.

Streams throughout Northern Indiana are reported out of their banks in consequene of the recent heavy rains, and considerable damage is said to be resulting.

A sixteen-pound pickerel which had been caught in a barb wire fence on some lowland overflowed by the St. Joseph river, was exhibited in Elkhart the other day.

The residence of Mrs. C. Staadecker, at Wabash, was destroyed by fire which had its origin in a gas-jet that was burning too high. Loss, $2,000; insurance on house and furniture, $2,500.

The first test well drilled in Auburn for a water supply has after continuous pumping for a week shown an average daily capacity of over 200,000 gallons per twenty-four hours. A second well is now under way.

While Mr. and Mrs. Valentine Hoffman, of Elkhart county, were busy with the morning chores, Mrs. Hoffman discovered their home in flames, and Mr. Hoffman had great difficulty in rescuing their children, who were still asleep in an upper room.

Willie, the nine-year-old son of Henry Sievers, near Columbia City, was attacked by a large dog he attempted to caress and his face was terribly lacerated by the brute. A gash four inches in length was made in his cheek and one of his ears was nearly torn off.

Mrs. W. H. Eggleston is truant officer for Wabash county and part of Kosciusko county. She is the only woman in the state serving in such capacity and her record is one of the best. Mrs. Eggleston has successfully prosecuted several cases of violation of the truancy law.

A. W. Farling, of Rockcreek township, Wells county, is the possessor in fee simple of a most mysterious hole which he discovered in his woods a few days ago. The hole is about the diameter of a big tile, eight inches or such a matter, and it seems to have no bottom. While passing through his woods, Mr. Farling heard a roaring sound he could not account for and upon investigation found it was made by the water from the recent rain flowing into a hole. He looked about but could find no outlet and getting a long pole he shoved it into the hole to a depth of ten or twelve feet without reaching the bottom. He will make use of his discovery by running several tile ditches into it; thus getting away with his surplus water without crossing his neighbor's land.

LEON WILL COME.

DeMontreville Accepts Manager O'Meara's Terms.

Plans for the New Grand Stand Have Been Prepared--It Will be Two Hundred Feet Long.

Manager Ed O'Meara today received a letter from Leon DeMontreville accepting the new terms offered him, and he will be ordered to report in Fort Wayne along with the other players on April 5. DeMontreville is at present in Washington and in his letter expresses the utmost confidence in his ability to make a first-class showing in the Inter-State league.

THE NEW PARK.

The plans for the new grand stand at the park on the Calhoun street flats have been agreed upon. The grand stand will be back of the catcher with seventy-five feet wings on each side of the main stand which will be fifty feet long, making a grand stand 200 feet in length. The seating capacity will be more that 1,000. The bleachers will be on the south side of the diamond, off of first base. There will be no bleachers along the third base line. Bad weather has prevented commencement of work on the grounds, but the contract, it is understood, has already been let for the building of the grand stand.

THE ATLANTIC LEAGUE.

PHILADELPHIA, Pa., March 22.—President Borrow, of the Atlantic Base Ball league, has announced that the schedule meeting of the league will be held at the Bingham house in this city on Thursday next. The league will adopt stringent rules against rowdyism on the field.

President Borrow considers the National league "Brush resolution" a little too strong and has recommended Hanlon's idea which compels the umpire to report to the league president any player who uses profane language or acts in any ungentlemanly manner during the game, the president to have the power to suspend the offender for from one to five days without pay.

NOTES.

The Daytons will report April 3 and 4.

Peter McBride, a pitcher, has been signed by Youngstown.

M. S. Allen, of Indianapolis, writes to Manager O'Meara recommending a pitcher named Leahr. He gives him a fine recommendation and says the youngster will be tried out by Manager Allen, of Indianapolis.

If Esterquest, the third baseman drafted by Cleveland from the Western association, proves a success, he will be the team's regular third baseman, Wallace playing short, McKean first, and Tebeau managing from the bench.

What has become of the far-reaching, fleet-footed Marty Hogan? Say, Marty, will you be wid us?—Dayton News. No, not on your tintype. Hogan will be a spectator this year. He has a Klondike here and is not anxious to play ball for Dayton.—Youngstown Exchange.

President Young, of the National league, has given out for publication the releases of the men under contract in the big league. John Blue, Bob Gilks and Bade Myers are released to Toledo and Manager Stroble feels very much relieved as he has telegraphed Robison several times within the past few days making inquiries regarding those players.

Cleveland has signed McAleer, who will play in the outfield. This will result in Beck being returned to Toledo as the Cleveland management has all the infielders they can use. Beck has been hitting like a fiend at Hot Springs and Manager Strobel will keep him there until the season opens to get the benefit of the baths. Cleveland will have a string on him for next season.

JACKSON-JEFFRIES.

The Latter is the Favorite in Betting Circles.

SAN FRANCISCO, Cal., March 22.—The betting on the Jackson-Jeffries fight, which occurs tonight, has been peculiar. While the straight betting is ten to seven with Jeffries the favorite, the Paris mutual's boards show Jackson to be the favorite at practically the same figures. The advance sale of seats already amounts to $6,000. At the request of the Olympic club, both men have been examined by a physician, who pronounces their condition absolutely perfect.

TO CURE A COLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. The genuine has L. B. Q. on each tablet.

AN EIGHT-HOUR DAY.

General Strike of Labor Unions in Prospect.

Organized Labor in St. Louis Will Inaugurate a Movement May 1 That Will Reach All Cities.

ST LOUIS, Mo., March 22.—There is a general belief that May will see a strike of all organized labor in St. Louis for an eight-hour day and ten hours' pay. There will be a general movement for better hours and the unions have the backing of the Central Trades and Labor union. The bricklayers, not only of this city, but all over the country, will demand an eight hour law on May 1, and it is also said the pressmen and machinists will follow. It is the general impression here that the strike will spread to every city in the Union. The Chicago building Trades council is said to be agitating for shorter hours, and the building trades of Chicago will make a similar demand, to become effective May 1. There is considerable doubt expressed among the employers as to whether they will accede to the demands of the men.

GLASS MEN MAY STRIKE.

PITTSBURG, Pa., March 22.—The window glass industry in the gas belt of Indiana, is in a state of uproar at present, and it is hard to say what the result will be. A meeting of the wage committee of the American window glass committee was to have been held here Monday, but the date was changed to Wednesday. When the manufacturers meet they will try to pacify the fighting employes. At present there are four factories idle. They are at Eaton, North Anderson, Orestes and Hartford City. There is a probability that the strike will spread until it affects every factory in the west.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on Dreier Bros., druggists, and get a trial bottle free. Regular size 50c and $1. Every bottle guaranteed, or price refunded.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back, weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c a bottle at Dreier & Bro.'s drug store.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dreier & Bro.

SHERIFF'S SALE.

No. 13,014.

In the Allen circuit court, State of Indiana Geo. McKenzie Jr. vs. Wm. B Lamborn, et. al.

By virtue of an order of sale, to me directed and delivered by the clerk of said court, in the above entitled cause, I have levied upon and will expose for sale by public auction, at the court house door in said county, between the hours of 1 and 4 o'clock p. m., of the 23rd day of April, 1898, the rents and profits for a term not exceeding 7 years, of the following described premises, in Allen County, Indiana, viz:

Lots 111, 124, 125 in Lakeside Park addition to the City of Fort Wayne, Allen County, Indiana, excepting so much of lot numbered one hundred and twenty-five (125) as is described as follows: commencing at the south east corner of lot numbered 125, thence westerly on the south line of said lot 36½ feet, thence northerly 85 feet to a point on the south line of St. Joe Boulevard 16 feet west of the north east corner of said lot, thence easterly sixteen feet to the said north east corner of said lot thence southerly to the place of beginning.

And on failure to realize therefrom the full amount of the judgement, interest thereon and costs, I will at the same time, and in the manner aforesaid, offer for sale the fee simple of the above described premises. Taken as the property of the defendant to satisfy said order of

Fishing for Health.

When a man breaks down with that dread disease, consumption, and recognizes his condition, he starts out to fish for health. He tries this thing and that thing. He consults this doctor and that doctor. He indulges in all kinds of absurd athletic exercises. He tries first one climate and then another. He tries the "get cure and the work cure. He grows steadily worse.

That is the story of most consumptives. Finally, when the consumptive dies, the doctor shrugs his shoulders and pronounces consumption incurable. A thirty years' test of Dr. Pierce's Golden Medical Discovery has demonstrated that it cures 98 per cent. of all cases of consumption, if taken in the earlier stages of the disease, before the lungs are too far wasted. In a consumptive there is a weaker spot than even the lungs. That spot is the stomach. A consumptive never really begins to die until his stomach gives out. The "Golden Medical Discovery" not only braces up the stomach, but acts directly on the lungs, healing them and driving out all impurities. Honest medicine dealers will not urge you to take an inferior substitute.

"I had a very bad cough, also night-sweats, and was almost in my grave with consumption," writes Mrs. Clara A. McIntyre, Box 171, Ashland, Middlesex Co., Mass. "A friend of mine had died with consumption came to me in a dream and told me to take Dr. Pierce's Golden Medical Discovery, and, thank the Lord, I did so. By the time I had taken half of the first bottle I felt much better. I kept on until I had taken three bottles. That was all I needed. I got well and strong again."

Whenever constipation is one of the complicating causes of disease, the most perfect remedy is Dr. Pierce's Pleasant Pellets, which are always effective, yet absolutely mild and harmless. There never was any remedy invented which can take their place. They never gripe.

SEEDS FROM OUR GROUNDS TO YOURS

WE no longer supply our seeds to dealers to sell again. At the same time, anyone who has bought our seeds of their local dealer during either 1896 or 1897 will be sent our **Manual of "Everything for the Garden" for 1898 FREE** provided they apply by letter and give the name of the **local merchant from whom they bought.** To all others, this magnificent **Manual**, every copy of which costs us 30 cts. to place in your hands, will be sent free on receipt of **10 cents** (stamps) to cover postage. Nothing like this **Manual** has ever been seen here or abroad; it is a book of **200** pages, contains **500** engravings of seeds and plants, mostly new, and these are supplemented by **6** full size colored plates of the best novelties of the season, finally,

OUR "SOUVENIR" SEED COLLECTION

will also be sent without charge to all applicants sending **10 cts.** for the **Manual** who will state where they saw this advertisement.

4—Curtain.

FOUR VICTIMS.

The Unfortunate Persons All Railway Men

And They Meet With Accident While in the Performance of Their Respective Duties.

There were three employes of the Pennsylvania company injured more or less seriously early this morning. Perhaps the most serious of the trio of accidents was the one which befell C. W. Larimore, a fireman, who was brought here on passenger train No. 39, at noon today.

Larimore's injuries are chiefly internal, and were received by jumping from his engine and falling against some ties. The engine was about to be derailed, and fearful lest it should turn over and seriously injure him, he sprang out with the above result. Dr. C. B. Stemen met the train at the depot and accompanied the injured man to his home where an examination was made. While his injuries are severe and painful, it is not thought that they will be permanent.

Edward D. Conway, a switchman in the east yards, was pinched between two cabooses at 1:30 o'clock this morning. He did not think he was badly injured and continued at his work for an hour. Then he was compelled to quit and return home, where Dr. George C. Stemen attended him and found that his injuries were internal. They are not considered serious, however.

Eugene Benoit, an employe of the freight house, had the artery of his right arm severed this morning while handling some sheet iron. The unfortunate man was brought down town, where Dr. C. B. Stemen dressed the wound. The injury is not regarded very serious, but it will keep Mr. Benoit from his labors two or three weeks. Mr. Benoit was only this morning transferred from the Pennsylvania yards to the freight house.

Last night John C. Manary, of the Pittsburg car shop, was informed of an accident which happened to his youngest son, Arthur Manary, at Kalkaska, Mich., last January. The young man was employed as a brakeman on one of the lumber roads running out of that city and in attempting to make a coupling his right hand was so badly crushed between the deadwoods that it was necessary to amputate the member. The young man has since been stopping with his sister, on a farm six miles out from Kalkaska, and at his request his parents were not informed of the accident until last night, when they heard of it through a friend who lives at Kalkaska.

PERSONAL AND OTHERWISE.

Nickel Plate engine 19 has gone to Stony Island for light repairs.

Conductors Wink and E. Hindall, of the Nickel Plate, are taking a few days' rest.

It is said that the fresh white suits of the Pennsylvania trainmen will be a bottle green, similar in color to the uniforms now worn by the Chicago and Alton trainmen.

On account of the sickness of [illegible] wife, [illegible], a pattermaker in the Pittsburg shops, is kept from his work.

Master Mechanic J. E. Keegan, of Grand Rapids, Mich., was in the city over night.

W. W. Olmstead and his family left last night for their new home, St. Thomas, Ont.

After a few days' rest, Engineer O. Merriett has reported for duty on the Nickel Plate.

Pittsburg Freight Conductor H. Bower is taking a lay off to look after some private business.

The Panhandle, since March 1, has handled 2,000 loaded cars per day on the Pittsburg division.

An anti-scalping bill similar to that of New York state has been introduced in the Ohio legislature.

Charles Szink has recovered from his recent illness and is working again in the Pittsburg paint shop.

S. O. Worman, a freight brakeman on the Pitteburg, is at Kendallville today, attending a funeral.

Zan McDaniel left yesterday for Portland, Ore., where he will take a position in an electric light plant.

Ed. Stier, machinist at the Bass works, is on the sick list and has not been able to work since last Thursday.

William Brossard, who had a hand injured last week, resumed work in the Pittsburg blacksmith shop this morning.

Engine 68, from the Eel River division of the Wabash, was turned out of the shops in this city today, after being repaired.

P. B. Bosworth, one of the foreman at the electric works, is confined to his home with tonsilitis. He was reported better this morning.

William Harkenrider is working again, after an absence on account of the sickness of his wife. He is employed in the Bass machine shop.

The Illinois Central has arranged to run its trains into Birmingham, Ala., operating over the Kansas City, Memphis and Birmingham road.

Gus Meyers, who is employed in the Bass blacksmith shop, is working again, after an absence on account of the death of his stepfather.

Engineer J. A. Swartz, who has been looking after some private business at Continental, Ohio, resumed his run on the Nickel Plate yesterday.

Blacksmith Owen Barry, of the Pittsburg shop, has recovered from the illness which kept him at home for a week. He reported for duty this morning.

The freight boycott of the Kansas City, Pittsburg and Gulf road has thus far proved a failure and the road is unharmed by the attack of the pooled lines.

Thirty-one thousand tons of steel rail, ranging in weight from seventy-five to eighty-five pounds to the yard, will be placed in the Baltimore and Ohio tracks this spring.

One of the senators in the Ohio legislature who has been bitterly fighting the railroads has been forced to admit that he was traveling on a clergyman's permit.

The gross earnings of the Lake Erie and Western this year showed an increase in January of $23,086; net earnings increased $12,636, and the surplus increased $10,460.

Conductor F. B. Maxwell, who has been running a local train out of Bellevue in place of the regular conductor, who was sick, has returned here and resumed a through freight run.

On Saturday the express companies reduced the price of carrying currency. The rate between New York and Chicago has for many years been $1 per $1,000; now it is but fifty cents.

On Saturday J. M Savin, assistant general manager of the Kansas City, Pittsburg and Gulf, retired and is succeeded by W. A. Williams, of Kansas City, who will have his headquarters at Quincy, Ill.

Fred Foss, a laborer at the Nickel Plate coal docks, had a big growth removed from his head last Saturday. The operation was successfully performed and Mr. Foss expects to resume his work soon.

H. B. Weyer, tinner at the east car shops, last night went to Delphos, Ohio, accompanied by his wife, to attend the funeral of the lady's cousin, a young man who died suddenly of typhoid fever last Sunday.

August Tassler had the misfortune this morning to badly injure one of his knees by an accidental blow with a hammer. He works in the tank department of the Pittsburg shops, but will be disabled for several days.

Godfrey Warren, formerly a passenger conductor on the Chicago and Eastern Illinois road, later in charge of the company's terminals at Chicago, has accepted the position of general yard master of the Grand Trunk at Detroit.

The Chicago and Eastern Illinois road last week compromised with Guy Ackerman, of Brazil, who was injured in the wreck of the miners' train at Coal Bluff, paying him $2,000. This is the second case settled. There are twenty more who claim damages.

Robert Kelley, the Lake Erie engineer, who was injured in the wreck at the junction of the Pittsburg west of town last October, was down town yesterday for the first time since the accident. He is still crippled, but he is able to get about with some degree of comfort.

Old class E engine, 22, which is now too light for service on the Pennsylvania lines, has been sold to the G. & W. railroad, and is being rebuilt and equipped for burning wood. It will present an odd appearance when the work is completed. The smoke stack is an immense affair, being five feet six inches in diameter. The engine has been renumbered No. 5.

Francis Burgess, the veteran machinist, has accepted a position with the Nickel Plate and will live in Stony Island, where he went yesterday. Mr. Burgess has worked at his trade many years in this city, first in the Pittsburg shops, then in the Wabash and later in the electric works. He helped to build the first Boone engine turned out of the Pennsylvania shops, and today firmly believes that for speed and general service, no better engine was ever produced.

A GOOD RUN.

Engineer Higgins and Fireman Powers, who brought in the first section of Wabash No. 2 and narrowly escaped injury in the wreck at the railway station Saturday morning, are credited with making one of the fastest runs ever made on the main line, says the Peru Journal. The train consisted of four cars and the illfated engine No. 174. According to a passenger on the train the distance of 103 miles between Tilton and this city, was covered in two hours and eleven minutes. At Attica the passenger noticed what time it was and when the train had passed over twenty miles he discovered that that distance had been covered in eighteen minutes. Another stretch of fifteen miles was made in thirteen minutes. Thus it will be seen that had not the eight stops between Tilton and Peru been made, the 103 miles would have been passed over at a greater rate of speed than sixty miles an hour.

A very pleasant social gathering was given by Miss Augusta Rudolph, of Spy Run avenue, in honor of her birthday anniversary, March 18th. Covers were laid for twelve. Table decorations were red and pink carnations and ferns. The feature of the dinner was a cake with a ring, thimble and coin in it, which caused much merriment. The evening was passed in music and singing. The hostess was delightfully surprised by receiving a beautiful silk umbrella from her guests.

CURFEW PETITION.

Communication From Berry Street Epworth League.

The Council Asked to Pass a Curfew Law --Will Arrange for the City Election at Council Meeting Tonight.

The city council will this evening be asked to pass a curfew law. This morning City Clerk Monning received a petition from the Epworth league of the Berry street M. E. church petitioning for the passage of a curfew law and calling attention to other cities where the enforcement of the law has reduced crime to a minimum. The petition was signed by Ella R. Willard, president; Rose E. Scarlet, secretary; Dr. J. H. Hetrick, Harriet F. Stemen, Rev. C. C. Cissell and 125 others.

WILL TALK ELECTION.

The election committee will tonight report the voting places and inspectors decided upon to the council. The report has been prepared, but inasmuch as there may be many changes made, City Clerk Monning would not give it out for advance publication.

ELECTION COMMISSIONERS.

Republican County Chairman Clapham today filed with City Clerk Monning the official appointment of Wilmer Leonard as the republican member of the board of election commissioners. The democratic member is William P. Breen. City Clerk Monning is the third member. These gentlemen have complete charge of all affairs pertaining to the election after the candidates have been certified to them.

MUNICIPAL NOTES.

The street and park employes were paid today.

Officer Pat Murphy is off duty suffering with measles.

No new cases of diphtheria or scarlet fever have been reported for a week.

RANDALL CHANGES.

Manager Ritchie Reappoints Two of the Popular Clerks.

Charles Rossington and Charles Jeffries Are the Lucky Men--Mr. Rossington Gives Up the Restaurant.

Manager Ritchie has made some changes at the Randall hotel which will make that hostelry more popular than ever with the traveling public.

C. J. Jellef yesterday resigned his position as day clerk and William Rodgerson also resigned as night clerk. Manager Ritchie appointed Charles Rossington to succeed Mr. Jellef and Charles Jeffries will succeed Mr. Rodgerson.

Messrs. Rossington and Jeffries were connected with the hotel when Dick Townsend was landlord and were popular with the traveling public. For some time past Mr. Rossington has been manager of the Nickel Plate restaurant, but last night telegraphed his resignation to Cleveland. Mr. Jeffries had charge of the Randall news stand.

Messrs. Jellef and Rodgerson made many friends during their stay in Fort Wayne and these friends will wish them success in whatever they may undertake.

WILL ENTHUSE TONIGHT.

Republicans Will Dedicate the New Campaign Headquarters.

The Fort Wayne republicans will tonight dedicate the new headquarters in the Foster block recently chosen by Chairman Clapham. Hon. R. S. Taylor, candidate for United States senator, and Dr. C. B. Stemen, candidate for congress from the Twelfth district, will deliver addresses. Dr. Stemen today made formal announcement of his candidacy for congress. A prominent republican remarked to THE SENTINEL today that the meeting was for the purpose of arousing enthusiasm in the approaching campaign.

It will be remembered that about a year ago a party of engineering students from Purdue university visited Fort Wayne, accompanied by Prof. J. J. Flather, mechanical engineer and professor of machine design at Purdue. Fort Wayne's big manufacturing institutions, including the Fort Wayne Electric corporation's works, the Bass foundry, the Pennsylvania shops and other manufactories were inspected by the students. Next Monday morning the students of Purdue will leave the university on a similar tour, accompanied by Professor Flather. The itinerary includes Louisville, Cincinnati, Dayton, Hamilton and possibly other manufacturing cities. The class will be absent a week. Several Fort Wayne and Allen county students will be with the party.

The Duodecimo club will meet tomorrow at the home Mrs. Van Slyke, 106 East Berry street, instead of Mrs. Geismar, as stated heretofore stated.

The Successful Remedy for NASAL CATARRH

must be used in sufficient quantity, and in such a manner, as to bring the curative agent into contact with the affected membranes. The remedy must be one that will by its own action reach the inflamed and diseased surfaces.

ELY'S CREAM BALM combines the important requisites of quick action and specific curative power with perfect safety to the patient. This agreeable remedy is a scientific catarrh antidote of rare and both physicians and patients freely concede the fact. All druggists cheerfully acknowledge that to it the acme of pharmaceutical skill has been reached. The most distressing symptoms quickly yield to it. In acute cases the Balm imparts almost instant relief.

By Absorption.

Catarrhal sufferers should remember that Ely's Cream Balm is the only catarrh remedy which is quickly and thoroughly absorbed by the diseased membranes. It does not dry up the secretions, but changes them to a limpid and odorless condition, and this is to a natural and healthy character.

The Balm can be found at any drug store, or by sending 50 cents to Ely Brothers, 56 Warren St., New York, it will be mailed.

Full directions with each package.

Cream Balm opens and cleanses the nasal passages, allays inflammation, thereby stopping pain, in the head, heals and protects the membrane and restores the senses of taste and smell. The Balm is applied directly into the nostrils.

HOME SEEKERS' EXCURSION

Via Wabash R. R. April 4, 5, 18 and 19, 1898.

Round trip tickets will be sold on above dates by the Wabash line and connections at low rates. Return limit twenty-one (21) days. A vast western territory is covered by these excursions. The Wabash has (4) four fast western trains daily (Sunday excepted), and is the only line running free reclining chair cars through to St. Louis and Kansas City.

For rates, routes, time of trains, conditions of tickets, and general information apply to Wabash ticket office, Phone No. 6. m 21-20t

Ohio Baking Powder Tests.

Gen. S. H. Hurst, Food and Dairy Commissioner at the time of the official analyses, writes of

Cleveland's Baking Powder

"The analyses and comparison of the best eight brands of cream of tartar baking powder show that Cleveland's Superior baking powder is the richest in cream of tartar, and richest in gas product, or leavening power, and, having no unhealthful or impure element in it, it is absolutely the best and most desirable baking powder manufactured."

Dispatches from Washington say the president is wearing out under the strain of momentous events now transpiring. What the president needs is the tonic of decisive action.

Five weeks ago tonight the battleship Maine was destroyed in the harbor of Havana. Two hundred and sixty brave sailors of our navy went down unwarned and unready to watery graves. Five weeks is not long to wait upon the coming of events in the ordinary course, but it is a dreary, trying age to wait for the word that shall tell the nation whether her brave marines were victims of accident or the prey of assassins.

The Holland submarine boat is behaving well in her trial trip under water, but she has not yet proved that she is able to navigate the bottom of the sea any better than the battleship Texas.

Secretary Gage says he is of the opinion that 90 per cent. of the people of the United States believe the Maine was blown up by accident. Secretary Gage has mistaken the clack of the stock-ticker for the beat of the public pulse.

The United States is not the only pebble on the beach. The prospect of a war in the far east is some shades more promising of immediate results than our own war scare. The threat of hostilities may pass away without conflict having ensued, but there is a better outlook for war than has been apparent for many years. Great Britain is moving with vastly more energy than has marked her statesmanship at any former time since the eastern crisis has been pending. A Palmerston or Beaconsfield would have had a war in progress weeks ago.

From New York city are being exerted the most powerful influences to induce the government of the United States to maintain peace at any price. Wall street is the symbol of these influences. But with the great masses of the city's population the feeling is different. The national spirit is running high, running over, almost running riot. The theaters are crowded nightly with vociferous throngs for whom the astute managers are providing new incentives to outbursts of patriotic feeling. "The Star Spangled Banner," "Hail Columbia," "America," and other national songs are sung from the stage, and the vast audiences join in the choruses. There is cheering, shouting and even more loud antics by which men and women, too, for the matter of that, may relieve the danger from patriotism at high pressure. The people of New York city are all right. The stock ticker may gauge the patriotism of some of her rich men, but it does not affect the populace.

Senator Proctor went to Cuba, it is now generally believed, as in some sort the personal representative of the president to observe the conditions that now prevail in the island. His story of what he saw almost passes belief, though it has been told in many forms by the newspaper correspondents. Senator Gallinger, who also has just returned from Cuba, says: "You can sign my name to any picture you may draw of utter wretchedness, destitution and hellishness in that country." These men are not writers for the much-damned "yellow" newspapers. What is the government going to do about Cuba?

For the government of the United States to postpone until next October or November any action to stop the war in Cuba is simply to connive at wholesale murder. Any ground for intervention six months hence is just as tenable for intervention at once. Any claims of humanity that may move this great and powerful republic to contemplate action in half a year cries out loudly that her hand be put forth now. To delay six months means to add another hundred thousand dead to the nearly half million victims of Spain's policy in Cuba. The war in Cuba should be stopped. The people should be allowed to return to their plantations and their employment whom they may set about the long and dreary task of restoring plenty to the desolated island.

The administration's procedure in the Maine disaster is mapped out. As soon as the report of the board of inquiry is received in Washington a copy of the findings and conclusions will be forwarded to the Spanish government at Madrid and suitable action asked. Then the report of the board of inquiry will be laid before congress and given to the public. It is stated in the same dispatches that no part of the report and no intimation of the finding has yet reached the executive authorities in Washington. A deal of inspired lying is being flashed over the wires from Washington. If no "intimation of the finding" of the board has reached the executive authorities at Washington these same executive authorities must be pretty much at sea as to what course of procedure is necessary. In the event the board of inquiry finds and concludes the destruction of the Maine was the result of Spanish treachery and that the Spanish government was quasi-party to and wholly responsible for the act, this government will hardly submit such finding to Spain with the request that the Madrid government take "appropriate action." The Washington government either knows what has been found, or it has outlined a program in the dark.

BOARD OF WORKS.

Resolutions Passed for the Paving of Streets.

All to be Paved With Asphalt—Asphalt Block for Columbia Street.—Other Routine Business.

The board of works at its meeting yesterday afternoon passed resolutions for the paving of a number of streets. All except West Columbia street are to be paved with asphalt block. The board also decided to allow all high grades of asphalt an opportunity to bid on the work and did not limit the specifications to one kind.

The Calhoun street pavement was covered in four resolutions, owing to differences in the street. From Superior street to Main will be paved with sheet asphalt, and the Main street crossing, owing to the numerous street railway tracks, will be paved with asphalt block. South from Main to Lewis sheet asphalt will again be used. South of Lewis street the main thoroughfare is somewhat narrower, an another resolution was required. The contract will be let as a whole, with separate specifications for the various divisions.

Other resolutions passed were the following:

For paving Columbia street, from Calhoun to Harrison, with asphalt block; for paving Creighton avenue, from Calhoun street to Lafayette, with asphalt; paving Suttenfield street, from Harrison to Lafayette, with asphalt; paving Woodland avenue, from Lafayette street to Hoagland avenue, with asphalt; paving Hoagland avenue, from DeWald street to Leith, with asphalt, and Harrison street, from DeWald to Woodland avenue, also with asphalt.

The engineer's plans for all these improvements were approved.

A petition asking that Brackenridge street be paved with asphalt from Calhoun street to Fairfield avenue, was received and filed.

A petition asking for a pavement in the alley between Wayne and Washington streets, from King to Camparet streets, was received and the engineer was instructed to prepare the plans.

Instructions were also issued for plans for paving with brick the alley between Main and Columbia streets, from Clinton to Barr, and for relaying sidewalks on the south side of Creighton avenue, from Smith street to Thomas.

Granting of sewer builders' bonds and permission to construct sidewalks completed the afternoon's business.

The Jenney Electric Light and Power company gave notice to the board that on Calhoun street it would erect arms for its street lamps, to take the place of the wires and poles which are now used.

PAUNCEFOTE'S DENIAL.

Declares Great Britain is Not Backing the Hawaiian Islands.

Washington, March 22.—Much surprise has been created in England by the passage in the recent report of the senate committee on foreign relations respecting the attitude of Great Britain toward Hawaii, and Sir Julian Pauncefote, under instructions from his government, has informed the department of state that the committee of the senate is under an entire misapprehension, and that there is no reason whatever for the allegations contained in the statement.

The passage referred to states that "if Great Britain is not industriously and openly engaged in fomenting this concerted movement for the destruction of the republic and the restoration of the monarchy on its ruins, her agents and the princess, her protege, are kept conveniently near at hand to fasten her power upon the islands on the happening of any protest for the protection of the lives and property of British subjects in Hawaii."

BRYAN TRUSTS TO M'KINLEY

Democratic Leader Says He Believes the President Will Satisfy All.

St. Louis, March 22. William J. Bryan was in town en route to Fayetteville, No., where he spoke last night. When asked about the war outlook, he said:

"That is a question which I do not like to discuss, but I will say that I have every belief that the honor of the country will be maintained. The public will soon know the facts by the publication of the report of the court of inquiry. The American people have shown their trust in the president by the unanimous passage in both houses of congress of the $50,000,000 appropriation bill. I do not think that any man can foretell the outcome, but if war comes it will be for the maintenance of the honor and dignity of the people. I have every faith in the president and believe that he will proceed in a way that will be satisfactory to the American people."

PAYS RAILROAD FARE.

Representative Tom Comp. of Michigan, Declines to Use a Pass.

St. Joseph, Mich., March 22.—Representative S. L. Van Camp, who holds the usual legislative pass, paid his fare to Lansing. Van Camp is a firm believer in Governor Pingree's railway policy, and on these grounds refused to travel on the pass.

MINUS A HUSBAND.

Peculiar Predicament of Mrs. L. C. Dillman at Tacoma, Wash.

Tacoma, Wash., March 22.—Mrs. L. C. Dillman arrived in Spokane last week from Terre Haute, Ind., to meet her husband, and greatly to her surprise found that she had been divorced over a year, and that Mr. Dillman had remarried. Two years ago Mrs. Dillman went to Terre Haute, and last year Mr. Dillman obtained a divorce from her in the Spokane county court. The allegations in the complaint on which the divorce was obtained were peculiar. They were that Mrs. Dillman's former husband, who, as she supposed was dead, had suddenly reappeared. The complaint set forth that it was by mutual consent the application for the divorce was made. Mrs. Dillman says she never heard anything about her first husband coming back to earth, and that she did not consent to a divorce.

NORTHERN INDIANA NOTES.

Miami county is to have a new jail.

Tuesday, March 29, another large delegation of German Baptists (Dunkers) will leave Wabash county for North Dakota, where a large colony of this sect has settled.

The two-year-old son of Mr. and Mrs. Ira Jacobson, of Goshen, stumbled and plunged in a bucket of boiling water and was so severely scalded that he will die.

Streams throughout Northern Indiana are reported out of their banks in consequence of the recent heavy rains, and considerable damage is said to be resulting.

A sixteen-pound pickerel which had been caught in a barb wire fence on some lowland overflowed by the St. Joseph river, was exhibited in Elkhart the other day.

The residence of Mrs. C. Studebecker, at Wabash, was destroyed by fire which had its origin in a gas-jet that was burning too high. Loss, $2,000; insurance on house and furniture, $2,500.

The first test well drilled in Auburn for a water supply has after continuous pumping for a week shown an average daily capacity of over 200,000 gallons per twenty-four hours. A second well is now under way.

While Mr. and Mrs. Valentine Hoffman, of Elkhart county, were busy with the morning chores, Mrs. Hoffman discovered their home in flames, and Mr. Hoffman had great difficulty in rescuing their children, who were still asleep in an upper room.

Willie, the nine-year-old son of Henry Shivers, near Columbia City, was attacked by a large dog he attempted to caress and his face was terribly lacerated by the brute. A gash four inches in length was made in his cheek and one of his ears was nearly torn off.

Mrs. W. R. Eggleston is truant officer for Wabash county and part of Kosciusko county. She is the only woman in the state serving in such capacity and her record is one of the best. Mrs. Eggleston has successfully prosecuted several cases of violation of the truancy law.

A. W. Furling, of Rockcreek township, Wells county, is the possessor in fee simple of a most mysterious hole which he discovered in his woods a few days ago. The hole is about the diameter of a big tile, eight inches or such a matter, and it seems to have no bottom. While passing through his woods, Mr. Furling heard a roaring sound he could not account for and upon investigation found it was made by the water from the recent rain flowing into a hole. He looked about but could find no outlet and getting a long pole he shoved it into the hole to a depth of ten or twelve feet without reaching the bottom. He will make use of his discovery by running several tile ditches into it; thus getting away with his surplus water without crossing his neighbor's land.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

ROYAL BAKING POWDER

Absolutely Pure.

LEON WILL COME.

DeMontreville Accepts Manager O'Meara's Terms.

Plans for the New Grand Stand Have Been Prepared—It Will be Two Hundred Feet Long.

Manager Ed O'Meara today received a letter from Leon DeMontreville accepting the new terms offered him, and he will be ordered to report in Fort Wayne along with the other players on April 5. DeMontreville is at present in Washington and in his letter expresses the utmost confidence in his ability to make a first-class showing in the Inter-State league.

THE NEW PARK.

The plans for the new grand stand at the park on the Calhoun street flats have been agreed upon. The grand stand will be back of the catcher with seventy-five feet wings on each side of the main stand which will be fifty feet long, making a grand stand 200 feet in length. The seating capacity will be more that 1,000. The bleachers will be on the south side of the diamond, off of first base. There will be no bleachers along the third base line. Bad weather has prevented commencement of work on the grounds, but the contract, it is understood, has already been let for the building of the grand stand.

THE ATLANTIC LEAGUE.

Philadelphia, Pa., March 22.—President Borrow, of the Atlantic Base Ball league, has announced that the schedule meeting of the league will be held at the Bingham house in this city on Thursday next. The league will adopt stringent rules against rowdyism on the field.

President Borrow considers the National league "Brush resolution" a little too strong and has recommended Hanlon's idea which compels the umpire to report to the league president any player who uses profane language or acts in any ungentlemanly manner during the game, the president to have the power to suspend the offender for from one to five days without pay.

NOTES.

The Daytons will report April 3 and 4.

Peter McBride, a pitcher, has been signed by Youngstown.

M. S. Allen, of Indianapolis, writes to Manager O'Meara recommending a pitcher named Leahr. He gives him a fine recommendation and says the youngster will be tried out by Manager Allen, of Indianapolis.

If Esforrest, the third baseman drafted by Cleveland from the Western association, proves a success, he will be the team's regular third baseman, Wallace playing short, McKean first, and Tebeau managing from the bench.

What has become of the far-reaching, fleet-footed Marty Hogan? Say, Marty, will you be wid us?—Dayton News. No, not on your tin-type. Hogan will be a spectator this year. He has a Klondike here and is not anxious to play ball for Dayton.—Youngstown Exchange.

President Young, of the National league, has given out for publication the releases of the men under contract in the big league. John Blue, Boo Gilks and Bade Myers are traded to Toledo and Manager Stroble feels very much relieved as he has telegraphed Robison several times within the past few days making inquiries regarding those players.

Cleveland has signed McAleer, who will play in the outfield. This will result in Beck being returned to Toledo as the Cleveland management has all the infielders they can use. Beck has been hitting like a fiend at Hot Springs and Manager Strobel will keep him there until the season opens to get the benefit of the baths. Cleveland will have a string on him for next season.

JACKSON-JEFFRIES.

The Latter is the Favorite in Betting Circles.

San Francisco, Cal., March 22.—The betting on the Jackson-Jeffries fight, which occurs tonight, has been peculiar. While the straight betting is ten to seven with Jeffries the favorite, the Paris mutuel's boards show Jackson to be the favorite at practically the same figures. The advance sale of seats already amounts to $6,000. At the request of the Olympic club, both men have been examined by a physician, who pronounces their condition absolutely perfect.

TO CURE A COLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. The genuine has L. B. Q. on each tablet.

AN EIGHT-HOUR DAY.

General Strike of Labor Unions In Prospect.

Organized Labor in St. Louis Will Inaugurate a Movement May 1 That Will Reach All Cities.

St. Louis, Mo., March 22.—There is a general belief that May will see a strike of all organized labor in St. Louis for an eight-hour day and ten hours' pay. There will be a general movement for better hours and the unions have the backing of the Central Trades and Labor union. The bricklayers, not only of this city, but all over the country, will demand an eight-hour law on May 1, and it is also said the pressmen and machinists will follow. It is the general impression here that the strike will spread to every city in the Union. The Chicago Building Trades council is said to be agitating for shorter hours, and the building trades of Chicago will make a similar demand, to become effective May 1. There is considerable doubt expressed among the employers as to whether they will accede to the demands of the men.

GLASS MEN MAY STRIKE.

Pittsburg, Pa., March 22.—The window glass industry in the gas belt of Indiana, is in a state of uproar at present, and it is hard to say what the result will be. A meeting of the wage committee of the American window glass committee was to have been held here Monday, but the date was changed to Wednesday. When the manufacturers meet they will try to pacify the fighting employes. At present there are four factories idle. They are at Eaton, North Anderson, Orestes and Hartford City. There is a probability that the strike will spread until it affects every factory in the west.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on Dreier Bros., druggists, and get a trial bottle free. Regular size 50c and $1. Every bottle guaranteed, or price refunded.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it, who has lame back, weak kidneys, marlaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c a bottle at Dreier & Bro.'s drug store.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dreier & Bro.

The Bradfield Regulator Co., Atlanta, Ga.

Fishing for Health.

When a man breaks down with that dread disease, consumption, and recognizes his condition, he starts out in dead earnest for health. He tries this thing and that thing. He consults this doctor and that doctor. He indulges in all kinds of absurd athletic exercises. He tries first one climate and then another. He tries the "rest cure" and the work cure. He grows steadily worse.

That is the story of most consumptives. Finally, when the consumptive dies, the doctor shrugs his shoulders and pronounces consumption incurable. A thirty years' use of Dr. Pierce's Golden Medical Discovery has demonstrated that it cures of the most, of all cases of consumption, if taken in the earlier stages of the disease, before the lungs are too far wasted. In a consumptive there is a weaker spot than even the lungs. That spot is the stomach. A consumptive never really begins to die until his stomach gives out. The "Golden Medical Discovery" not only cures the stomach, but acts directly on the lungs, healing them and driving out impurities. Honest medicine dealers will not urge you to take an inferior substitute.

"I had a very bad cough, also night sweats, and was almost in my grave with consumption," writes Mrs. Clara A. McIntyre, Box 224, Ashland, Middlesex Co., Mass. "A lot of mine had died with consumption close to me. I obtained and took just to take Dr. Pierce's Golden Medical Discovery, and the Pellets. I should say, by the time I had taken half of the first bottle, I felt much better. I kept on until I had taken three bottles. That was all I needed. I got well and strong again."

Whenever constipation is one of the complicating causes of disease, the most perfect remedy is Dr. Pierce's Pleasant Pellets, which are always effective, yet absolutely mild and harmless. There never was such a remedy invented which can take their place. They never gripe.

SEEDS FROM OUR GROUNDS GROW TO YOURS

WE no longer supply our seeds to dealers to sell again. At the same time, any one who has bought our seeds of their local dealer during either 1896 or 1897 will be sent our "Manual of Advice for the Garden" for 1898 FREE provided they apply by letter before Feb. 15th and give the name of the local merchant from whom they bought. To all others, this magnificent Manual, every copy of which costs us 25 cents to place in your hands, will be sent free on receipt of 10 cents (stamps) to cover postage. Nothing like this Manual has ever been seen here or abroad; it is a book of 200 pages, contains 500 engravings of seeds and plants, mostly new, and these are supplemented by 8 full size colored plates of the best novelties of the season, finally,

OUR "SOUVENIR" SEED COLLECTION

will also be sent without charge to all applicants sending 10 cts. for Manual, who will please state where they saw this advertisement.

FOUR VICTIMS.

The Unfortunate Persons All Railway Men

And They Meet With Accident While in the Performance of Their Respective Duties.

There were three employes of the Pennsylvania company injured more or less seriously early this morning. Perhaps the most serious of the trio of accidents was the one which befell C. W. Larimore, a fireman, who was brought here on passenger train No. 39, at noon today.

Larimore's injuries are chiefly internal, and were received by jumping from his engine and falling against some ties. The engine was about to be derailed, and fearful least it should turn over and seriously injure him, he sprang out with the above result. Dr. C. B. Stemen met the train at the depot and accompanied the injured man to his home where an examination was made. While his injuries are severe and painful, it is not thought that they will be permanent.

Edward D. Conway, a switchman in the east yards, was pinched between two caboosses at 1 o'clock this morning. He did not think he was badly injured and continued at his work for an hour. Then he was compelled to quit and return home, where Dr. George C. Stemen attended him and found that his injuries were internal. They are not considered serious, however.

Eugene Benoit, an employe of the freight house, had the artery of his right arm severed this morning while handling some sheet iron. The unfortunate man was brought down town, where Dr. C. B. Stemen dressed the wound. The injury is not regarded very serious, but it will keep Mr. Benoit from his labors two or three weeks. Mr. Benoit was only this morning transferred from the Pennsylvania yards to the freight house.

Last night John C. Mamary, of the Pittsburg car shop, was informed of an accident which happened to his youngest son, Arthur Mamary, at Kalkaska, Mich., last January. The young man was employed as a brakeman on one of the lumber roads running out of that city and in attempting to make a coupling his right hand was so badly crushed between the deadwood that it was necessary to amputate the member. The young man has since been stopping with his sister, on a farm six miles out from Kalkaska, and at his request his parents were not informed of the accident until last night, when they heard it through a friend who lives at Kalkaska.

PERSONAL AND OTHERWISE.

Nickel Plate engine 19 has gone to Stony Island for light repairs.

Conductors Wink and E. Hindall, of the Nickel Plate, are taking a few days' rest.

It is said that this month fifteen suits of the Pennsylvania tenement will be a bright green, similar in color to the uniform now worn by the Chicago and Alton trainmen.

On account of the sickness of wife H. Book, a patternmaker in the Pittsburg shops, is kept from his work.

Master Mechanic J. E. Keegan, of Grand Rapids, Mich., was in the city over night.

W. W. Olmstead and his family left last night for their new home, St. Thomas, Ont.

After a few days' rest, Engineer O. Merriott has reported for duty on the Nickel Plate.

Pittsburg Freight Conductor H. Bower is taking a lay off to look after some private business.

The Panhandle, since March 1, has handled 2,000 loaded cars per day on the Pittsburg division.

An anti-scalping bill similar to that of New York state has been introduced in the Ohio legislature.

Charles Szink has recovered from his recent illness and is working again in the Pittsburg paint shop.

S. O. Worman, a freight brakeman on the Pittsburg, is at Kendallville today, attending a funeral.

Zan McDaniel left yesterday for Portland, Ore., where he will take a position in an electric light plant.

Ed. Siler, machinist at the Bass works, is on the sick list and has not been able to work since last Thursday.

William Brossard, who had a hand injured last week, resumed work in the Pittsburg blacksmith shop this morning.

Engine 63, from the Fel River division of the Wabash, was turned out of the shops in this city today, after being repaired.

P. B. Bosworth, one of the foreman at the electric works, is confined to his home with tonsilitis. He was reported better this morning.

William Harkenrider is working again, after an absence on account of the sickness of his wife. He is employed in the Bass machine shop.

The Illinois Central has arranged to run its trains into Birmingham, Ala., operating over the Kansas City, Memphis and Birmingham road.

Gus Meyers, who is employed in the Bass blacksmith shop, is working again, after an absence on account of the death of his step father.

Engineer J. A. Swartz, who has been looking after some private business at Continental, Ohio, resumed his run on the Nickel Plate yesterday.

Blacksmith Owen Barry, of the Pittsburg shop, has recovered from the illness which kept him at home for a week. He reported for duty this morning.

The freight boycott of the Kansas City, Pittsburg and Gulf road has thus far proved a failure and the road is unharmed by the attack of the pooled lines.

Thirty-one thousand tons of steel rail, ranging in weight from seventy-five to eighty-five pounds to the yard, will be placed in the Baltimore and Ohio tracks this spring.

One of the senators in the Ohio legislature, who has been bitterly fighting the railroads, has been forced to admit that he was traveling on a clergyman's permit.

The gross earnings of the Lake Erie and Western this year showed an increase in January of $23,088; net earnings increased $12,636, and the surplus increased $10,460.

Conductor F. B. Maxwell, who has been running a local train out of Bellevue in place of the regular conductor, who was sick, has returned here and resumed a through freight run.

On Saturday the express companies reduced the price of carrying currency. The rate between New York and Chicago has for many years been $1 per $1,000; now it is but fifty cents.

On Saturday J. M. Savin, assistant general manager of the Kansas City, Pittsburg and Gulf, retired and is succeeded by W. A. Williams, of Kansas City, who will have his headquarters at Quincy, Ill.

Fred Fose, a laborer at the Nickel Plate coal docks, had a big growth removed from his hand last Saturday. The operation was successfully performed and Mr. Fose expects to resume his work soon.

B. B. Wayer, timer at the east car shops, last night went to Delphos, Ohio, accompanied by his wife, to attend the funeral of the lady's cousin, a young man who died suddenly of typhoid fever last Sunday.

August Tassler had the misfortune this morning to badly injure one of his knees by an accidental blow with a hammer. He works in the tank department of the Pittsburg shops, but will be disabled for several days.

Godfrey Warren, formerly a passenger conductor on the Chicago and Eastern Illinois road, later in charge of the company's terminals at Chicago, has accepted the position of general yard master of the Grand Trunk at Detroit.

The Chicago and Eastern Illinois road last week compromised with Guy Ackerman, of Brazil, who was injured in the wreck of the miners' train at Coal Bluff, paying him $2,000. This is the second case settled. There are twenty more who claim damages.

Robert Kelley, the Lake Erie engineer, who was injured in the wreck at the junction of the Pittsburg west of town last October, was down town yesterday for the first time since the accident. He is still crippled, but he is able to get about with some degree of comfort.

Old class E engine, 22, which is now too light for service on the Pennsylvania lines, has been sold to the G. & W. railroad, and is being rebuilt and equipped for burning wood. It will present an odd appearance when the work is completed. The smoke stack is an imminent affair, being five feet six inches in diameter. The engine has been renumbered No. 6.

Francis Burgess, the veteran engineer, has accepted a position with the Nickel Plate and will run in Stony Island, where he went yesterday. Mr. Burgess has worked at his trade many years in this city, first in the Pittsburg shops, then in the Wabash and later in the electric works. He helped to build the first Boone engine turned out of the Pennsylvania shops, and today firmly believes that for speed and general service, no better engine was ever produced.

A GOOD RUN.

Engineer Higgins and Fireman Powers, who brought in the first section of Wabash No. 2 and narrowly escaped injury in the wreck at the railway station Saturday morning, are credited with making one of the fastest runs over made on the main line, says the Peru Journal. The train consisted of four cars and the lifted engine No. 174. According to a passenger on the train the distance of 103 miles between Tilton and this city, was covered in two hours and eleven minutes. At Attica the passenger noticed what time it was and when the train had passed over twenty miles he discovered that that distance had been covered in eighteen minutes. Another stretch of fifteen miles was made in thirteen minutes. Thus it will be seen that had not the eight stops between Tilton and Peru been made, the 103 miles would have been passed over at a greater rate of speed than sixty miles an hour.

A very pleasant social gathering was given by Miss Augusta Rudolph, of Spy Run avenue, in honor of her birthday anniversary, March 15th. Covers were laid for twelve. Table decorations were red and pink carnations and ferns. The feature of the dinner was a cake with a ring, thimble and coin in it, which caused much merriment. The evening was passed in music and singing. The hostess was delightfully surprised by receiving a beautiful silk umbrella from her guests.

DR. PRICE'S CREAM BAKING POWDER

MOST PERFECT MADE.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant.

40 YEARS THE STANDARD.

CURFEW PETITION.

Communication From Berry Street Epworth League.

The Council Asked to Pass a Curfew Law —Will Arrange for the City Fireless at Council Meeting Tonight.

The city council will this evening be asked to pass a curfew law. This morning City Clerk Monning received a petition from the Epworth league of the Berry street M. E. church petitioning for the passage of a curfew law and calling attention to other cities where the enforcement of the law has reduced crime to a minimum. The petition was signed by Ella B. Willard, president; Rose E. Scarlet, secretary; Dr. J. H. Hatrick, Harriet F. Stemen, Rev. C. C. Cissell and 125 others.

WILL TALK ELECTION.

The election committee will tonight report the voting places and inspectors decided upon to the council. The report has been prepared, but inasmuch as there may be many changes made, City Clerk Monning would not give it out for advance publication.

ELECTION COMMISSIONERS.

Republican County Chairman Clapham today filed with City Clerk Monning the official appointment of Wilmer Leonard as the republican member of the board of election commissioners. The democratic member is William P. Breen. City Clerk Monning is the third member. These gentlemen have complete charge of all affairs pertaining to the election after the candidates have been certified to them.

MUNICIPAL NOTES.

The street and park employes were paid today.

Officer Pat Murphy is off duty suffering with measles.

No new cases of diphtheria or scarlet fever have been reported for a week.

RANDALL CHANGES.

Manager Ritchie Reappoints Two of the Popular Clerks.

Charles Rossington and Charles Jeffries Are the Lucky Men—Mr. Rossington Gives Up the Restaurant.

Manager Ritchie has made some changes at the Randall hotel which will make that hostelry more popular than ever with the traveling public.

C. J. Jolliet yesterday resigned his position as day clerk and William Rodgerson also resigned as night clerk. Manager Ritchie appointed Charles Rossington to succeed Mr. Jolliet and Charles Jeffries will succeed Mr. Rodgerson.

Messrs. Rossington and Jeffries were connected with the hotel when Dick Townsend was landlord and were popular with the traveling public. For some time past Mr. Rossington has been manager of the Nickel Plate restaurant, but last night telegraphed his resignation to Cleveland. Mr. Jeffries had charge of the Randall news stand.

Messrs. Jeffel and Rodgerson made many friends during their stay in Fort Wayne and these friends will wish them success in whatever they may undertake.

WILL ENTHUSE TONIGHT.

Republicans Will Dedicate the New Campaign Headquarters.

The Fort Wayne republicans will tonight dedicate the new headquarters in the Foster block recently chosen by Chairman Clapham. Hon. H. S. Taylor, candidate for United States senator, and Dr. C. B. Stemen, candidate for congress from the Twelfth district, will deliver addresses. Dr. Stemen today made formal announcement of his candidacy for congress. A prominent republican remarked to The Sentinel, today that the meeting was for the purpose of arousing enthusiasm in the approaching campaign.

It will be remembered that about a year ago a party of engineering students from Purdue university visited Fort Wayne, accompanied by Prof. J. J. Flather, mechanical engineer and professor of machine design at Purdue. Fort Wayne's big manufacturing institutions, including the Fort Wayne Electric corporation's works, the Bass foundry, the Pennsylvania shops and other manufactories were inspected by the students. Next Monday morning the students of Purdue will leave the university on a similar tour, accompanied by Professor Flather. The itinerary includes Louisville, Cincinnati, Dayton, Hamilton and possibly other manufacturing cities. The class will be absent a week. Several Fort Wayne and Allen county students will be with the party.

The Duodecimo club will meet tomorrow at the home Mrs. Van Slyke, 166 East Berry street, instead of Mrs. Goismar, as stated heretofore.

Dr. Davis' Anti-Headache Cures where all others fail. All druggists.

WALL PAPER.

We have the handsomest line in the city.

The large purchases we make enable us to sell Cheaper than others.

Call and see our artistic line.

KEIL & KEIL,
116 Calhoun St.

21-31

We are Not Running a Cut Rate Bicycle Sundry House.

We think too much of the friendship of our customers and expect to continue business for years to come. We could not do this were we to handle shoddily made and job lot goods. We have, however, a full line of reputable, guaranteed sundries at lowest prices for this class of goods. We are not afraid of legitimate competion. Give us a trial.

COLUMBIA MACHINE WORKS,
19tf 64 and 66 Barr St.

The Successful Remedy for NASAL CATARRH

must be non-irritating, easy of application, and one that will by its own action reach the inflamed and diseased surface.

ELY'S CREAM BALM combines the required properties and is without doubt the most effective remedy ever before the public. This opinion is already fully endorsed by druggists, physicians and those who have used it, all being quick to acknowledge that in it the sum of the curative effects of all have been reached. The process of administering is simple, quick and painless, and the Balm reports itself as it is used.

By Absorption.

Catarrhal sufferers should remember that Ely's Cream Balm is the only catarrh remedy which is entirely and thoroughly absorbed by the system. It does not dry up the secretions, but changes them to a healthy and natural condition, and thus it is a natural and lasting cure.

Ely's Cream Balm can be found at any druggist, or by sending 50 cents by mail to Ely Brothers, 56 Warren St., New York, it will be mailed.

Full size (liquid) 75 cents, including the spraying tube, which is indispensable in applying the liquid to the nasal passages. Ely's Liquid Cream Balm is the only liquid preparation that contains the healing properties of the solid Balm.

HOME SEEKERS' EXCURSION

Via Wabash R. R. April 5, 19 and 19, 1898.

Round trip tickets will be sold on above dates by the Wabash line and connections at low rates. Return limit twenty-one (21) days. A vast western territory is covered by these excursions. The Wabash has (4) four fast western trains daily (Sunday excepted), and is the only line running free reclining chair cars through to St. Louis and Kansas City.

For rates, routes, time of trains, conditions of tickets, and general information apply to Wabash ticket office, Phone No. 6. 20-26

Just received, a full line of nobby spring suitings, at lowest prices. Fit guaranteed. G. Schmidt, Merchant Tailor, 70 E. Main St. 11tf

Peter Hohnhaus, gang boss of the city street employes, ran a nail in one of his hands this morning and suffered a painful wound.

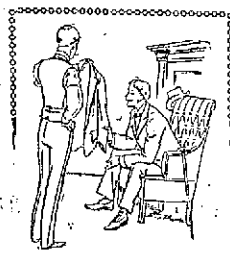
Dyspepsia, Heartburn, Gas, Biliousness, Dizziness and all disorders positively cured. Grover Spohn's D. D. D. is a remedy to a specific. One dose convinces the most skeptical, and a permanent cure of the most chronic and severe cases is guaranteed. Do not suffer! A 25 cent bottle will convince the most skeptical.
A. C. COCKE, Druggist.

Examine Them.



When you see a Suit of clothes which some one tells you is "just as good" as our $25 Suits, examine them. See if they are as well made, if the cloth is as good, if the character of workmanship all the way through is what you think it ought to be and above all see if the fit and style is there. It is possible to make clothes cheaper than we do, but it is not possible to make first-class clothes cheaper.
